OM NAMAH SHIVAY, GURUJI SADA SAHAY

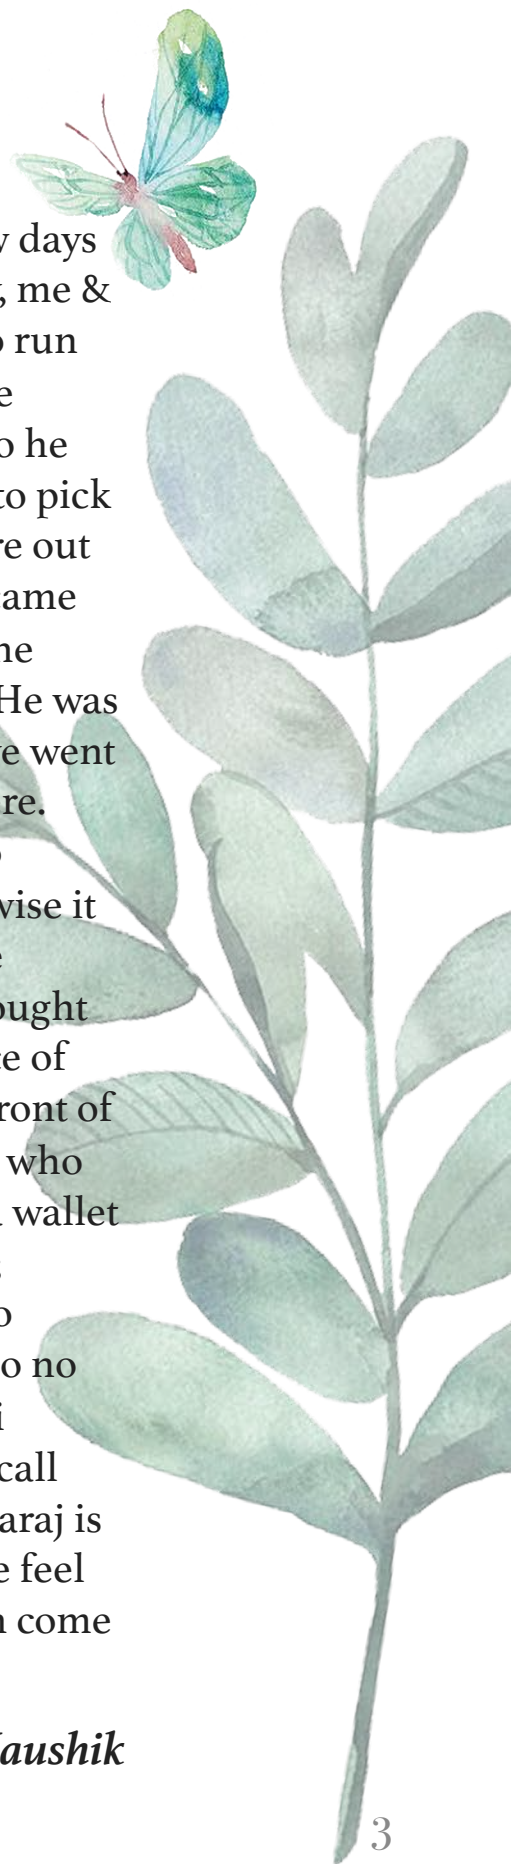

Jai Guruji,

We would like to wish dear Guruji a very happy birthday and thank him for blessing us with such a beautiful Guru Family. We humbly thank all the sangats for sharing their divine experiences. We ask for forgiveness with folded hands for any mistakes or shortcomings in our attempts to share our experiences.

Jai Guruji Sangat,

Want to share my satsang which happened a few days ago. We live in Los Angeles, California. One day, me & my husband decided to go for a drive and also to run an errand. My husband took out the car from the garage. He was doing something in the garage, so he put his wallet on top of the car . Later, he forgot to pick it up & without realizing we drove away. We were out for an hour going to different places. When we came back, all of a sudden, my husband realized that he didn't pick up his wallet from the top of the car. He was all panicked & we drove again to all the places we went earlier, but no luck. We could not find it anywhere. When we were coming back home, we prayed to Guruji that please help us find our wallet otherwise it will be a big hassle. When we entered our house through the garage door, as if Guruji put this thought in my mind that go check the main door entrance of the house, and sangat ji the wallet was there in front of main door. We knew that it's our beloved Guruji who put it there. Who else could have done it? Find a wallet in a big city & bring it home. Our son was home; nobody rang the bell or knocked the door. Just to mention, our house has a long driveway & gate so no one can come in without informing. How Guruji always comes to the rescue of his devotees if we call him for help with all our faith. Our Guruji Maharaj is amazing; no words can describe the gratitude we feel for our lord. He's there for all of us. No harm can come to you in his protection. Thank you Guruji.

- Sanjana Kaushik

Jai Guruji,

This incident is from third week of March, 2020. My son was working in Phoenix and he fell sick with fever, cough, sore throat, and restlessness. COVID was prominent in the news, and one worries as he had gone to a concert 3 days before he fell sick. He had been in the city for about 10 months and had not yet visited a doctor nor had a need to visit one.

When he fell sick, he was not up to looking for doctors around his area. I was getting worried as he had been ailing for a week and wasn't doing so good and had wanted to go there to check on him but he forbade me from coming.

This is where Guruji stepped in. A high school friend, who lives in the mid west, called after a long time. We talked about the kids and their well-being, etc. and on hearing that my son was not well and needed to see a doctor, she said "We have friends in Phoenix, people who went to school with my husband, who is a doctor, and if you want I can send you the names and ask them to see him ASAP."

So beant shukrana to Guruji, who arranged for my son to see a doctor in those tough times and get his meds and get better.

- Vineeta Sehgal

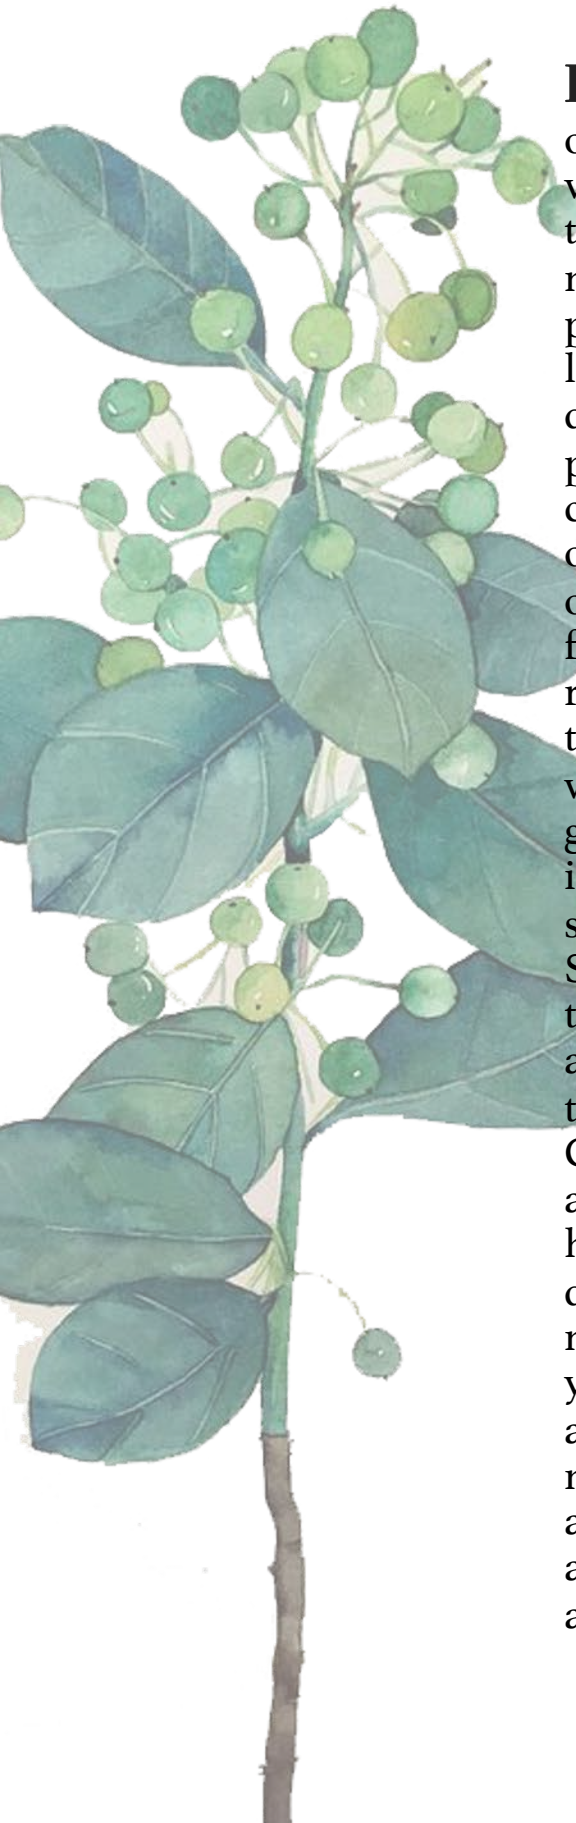

After attending a few satsangs, we decided to host a satsang at our place with Guruji's blessings. It was set for October, 2016. I wanted to decorate Guruji's chola by myself with embroidery and decorative borders. A few months before the satsang, I started noticing dark, pointy spots on my hands and arms. They were painful and itchy. I was also experiencing a lot of pain in the right arm. I spoke to a few friends about my condition and they told me it's shingles. Shingles can take a long time to get cured and the pain will keep increasing with time.

My daughter took me to the doctor and he diagnosed it as shingles, so now it was confirmed. He said it would take 4-6 months to recover. I was in a dilemma since I already started the borders of the chola. How can I complete it if my hands are not recovered soon? I still managed to take out my sewing machine and give it a shot. My machine would not work. I was really shocked because it's a fairly new machine. How can it suddenly stop working? Date for satsang was coming close and pain was unbearable at times.

During my prayers, I spoke to Guruji and asked him how will I make your chola borders with shingles. I slept around 11pm that same night and woke up to a fragrance of roses at 2am. The fragrance lasted a few minutes. My room was filled with aroma of beautiful roses. With Guruji's blessings, I was able to complete the chola sewa slowly by hand. After a few days, the spots started disappearing and within 4 weeks, I was completely cured. The doctors had told me 4-6 months and Guruji cured me in only a month. With his grace, we had a successful 1st satsang. Jai Guruji.

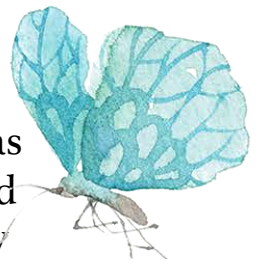

- *Manju Wadhwa*

I had been working for my company for over 19 years. One day, I came back from vacation and suddenly get a news that there is a merger and operations are moving to SFO, which also meant that people who can't relocate will need to leave the company. It was a moment of devastation, not just for me but for other people who had been a major part of the company and were helping in day to day operations. This job was my only source of income. I was very depressed and feeling low. The tears wouldn't stop rolling down because I had no idea how to pay bills or take care of my financial worries without the job. One week later I get a dream about Guruji. He was sitting in an auditorium. I see kids playing in the street. Even I was playing with them. Sangat was going inside the auditorium to see Guruji. One of the sangat members asked me "Why don't you come upstairs to do darshan?" I go upstairs and see Guruji in a white chola. He looks directly at me and tells me to give my hand to him. I extended my hand. He puts two dots on my hand with vibuthi and tells me "Guruya te vishwas kitta kar" (Trust your Guru). I woke up from the dream, and since then I don't know how I've been managing my financial problems without a job. There is no stress or depression at all. I know he's there and will guide me all the way through to success. Jai Guruji.

- *Rachna Wadhwa*

We had a satsang being hosted on October 28th, 2017. It has been my sewa to create the playlist for the satsang. Around 6:30AM on the 27th, I see Guruji appear in front of me. My eyes were closed. His darshan was in my 3rd eye. This was not a dream. I was very much conscious and not asleep at the time. I smiled looking at Guruji's face and asked him "Hanji. Batao aapke liye iss baar konse bhajan download karu?" He replied in a deep Punjabi accent "Nanhe Kanha Karlo." I woke up and began to Google what shabad is "Nanhe Kanha." Couldn't find anything specific so I started searching for bhajans related to Krishna. Found Ashutam Keshavam, downloaded it, and was ready to play it. Saturday evening (Satsang Day) is here. We serve our chai prasad and sangat starts coming in for darshan. All of a sudden, Hare Krishna temple devotees walk in! We have been doing satsang's for a year and this is the first time our house was being blessed by Hare Krishna devotees. They all were wearing tulsi mala. I thought to myself that the only Krishna bhajan I downloaded was Ashutam Keshavam, but as the playlist went on I realized that I had also done "Tum Hi Mere Ram. Tum Hi Mere Shaam." This was also a Krishna bhajan. It was such an amazing experience for me to get a message from Guruji to do Krishna bhajans because devotees were to attend the Satsang. He knew it! At the end of the Satsang, all the Krishna Temple devotees thanked us for a wonderful 1st experience. (Karte Ho Tum Guruji, Mera Naam Ho Raha Hai.)

I went to bed that night happy that I had a conversation with Guruji! All this time I used to think, "How can people talk to Guruji like this? Is it just their imagination?" I learned, that night, that conversations do happen. I heard his voice and the Punjabi accent clearly. "Nanhe Kanha" will always be my favorite satsang because it embarks the 1st time I conversated with Guruji and got a powerful message from him. Jai Guruji.

- Nima

Jai Guruji,

Mera satsang:

Guruji lately cured me of a weird rash and gynecologic problem that developed on the privates since January. None of the medicines proved to be of much help. It would improve only as long as I applied the topical cream and took oral medication.

Three weeks back, I listened to a satsang where people shared about their experiences of getting fit after illness by Guruji's blessings. Also, I was talking to another sangat of Guruji, and she also told me to seek blessings from Guruji by talking to Him.

I prayed to Guruji ki ab aap hi dekho and now that rash and gynecologic problem has been cured properly. Guruji has blessed me with good health.

I am very grateful to him.

Shukrana Guruji.

- Ritu

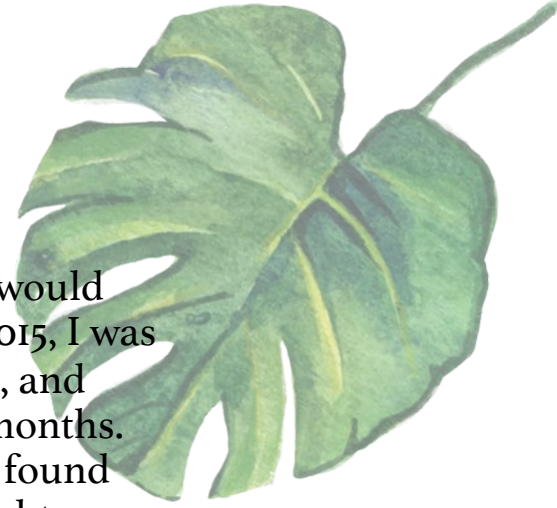

Guruji changed the course of my life.

Jai Guruji dear sangat ji,

My name is Ekta. With Guruji's permission I would like to share a small satsang with you all. In 2015, I was having some health issues, severe chest pains, and was in and out of the hospital for almost 2-3 months. After undergoing many tests, my cardiologist found out that I had a major blockage in my front right artery and needed to get an angioplasty done as soon as possible. So much so that he wanted me to get admitted the next day. My husband, Manish, was on his way to the airport for a business trip for a day when the doctor called. This was on December 9th. As soon as I hung up the doctor's phone, I called Manish and filled him in with what the doctor said and started crying. We have 3 young kids and just thinking about them made me really stressed. Obviously you get all negative thoughts of what if something happens to me, who will take care of my kids, etc.

Manish cancelled his trip and came back from the airport. Since I was supposed to take blood thinners and I was not mentally prepared I decided to skip a day.

One of our LA Guru Pariwar sangat Sita Aunty, who has been like my God mother, became my pillar of support during my tough time. Believe me, every time I had any doubt about anything, Sita aunty would text me right then with a solution to my problem even without me telling her. So as expected, aunty texted me saying that she was getting a very weird feeling that something is not well with me. When I told her what the cardiologist said, she said she would pray for me. I had not even told my parents in India about my health, thinking they would get tense.

The following day when I was supposed to go for the surgery (December 11), Manish told me to call home and talk to mom and dad. Just before I was going to the hospital, I called mummy and papa and told them about the surgery. Mummy obviously got very worried. The doctor had told me that it would be a major surgery and I would have to stay in the hospital for 3-4 days. While I was talking to mummy, Sita aunty texted me saying that Guruji has given her a darshan in her prayer and told her that he will be going with me to the OT to be with me but he has scanned by body. He told her that everything is going to be fine and I will be going home that day itself. Reading aunty's text gave me some relief and I went in the OT by surrendering myself to Guruji.

With Guruji's kirpa, as expected, the same doctor who found a major blockage 2 days before didn't find anything during the procedure. Hence, he ended up just doing the angiogram. As luck would have it, when the nurse was taking me to the recovery room, I read the room number. It said no. 7. The only words that came out of my mouth was 'Bas mere Guruji mere saath hain. Nothing can ever happen to me'. Like Sita aunty had told me, I was discharged the same day. December 12 happens to be our wedding anniversary. Thanks to Guruji, I was able to celebrate my anniversary at home with my husband and kids. Till today the doctor had not been figure out what/how it happened. But I know it is all due to my beloved Guruji.

Shukarana Guruji. Twada Lakh Lakh Shukarana.

- Ekta Kapoor

We feel immense blessings to be in our revered GURUJI's Sharan during these unprecedented times of the COVID 19 pandemic. He has always and continues to protect us in every way possible. However, it still remains our responsibility to use good & sensible judgement and good practices to keep ourselves safe.

The pandemic has adversely affected most of us, especially those in small businesses, and as such, had caused me sleepless nights just pondering how to keep my events and wedding planning business afloat, but more so, how to take care of those who work for me, so that they can be taken care of. GURUJI asked for complete surrender, and in doing so and letting HIM be my guiding light, it really relieved me of a lot of mental pressure. GURUJI has given his darshan EVERY SINGLE DAY (except 1 Thursday) for over 1 month in the form of a beautiful single Monarch butterfly, which brings so much joy and brightens my day. This is quite an amazing phenomenon if one thinks about this - what are the chances that 1 butterfly will fly through our backyard for just a few seconds and I will be able to place my sight on it while still inside my home? It is HIS grace that he makes me aware of HIS presence and ensures that I lift my eyes to gaze at HIS presence. This sighting would only happen once per day, although I would be so eager to see this multiple times every day.

That particular Thursday when I did not see the butterfly, it was evening time and I was preparing for our regular Thursday Satsang at home. Every Thursday I would prepare Kara Prashad, but this particular Thursday HE kept me so busy that I was delayed in this preparation. I therefore went to my refrigerator and was taking out some strawberries that I intended to use as Prashad. I have never seen a strawberry like this in my life - it was 1 single strawberry, but like 4 strawberries fused together in the shape of a butterfly!!! GURUJI obviously planned this so strategically that I did not miss HIS darshan that day.

JAI GURUJI!! SHUKRANA, SHUKRANA, SHUKRANA GURUJI.

Jai GURUJI!

With HIS immense Grace, during this shelter-at-home phase, HE has given us all the opportunity to spend far more undistracted time in Simran and Satsang. This has been a tremendous opportunity to strengthen our belief that HE is there every step of the way! Even for those of us that have suffered in some way – physical, emotional health or financial, we believe that HE has taken away 95% of the problem and left us only with a residual 5% to complete our Karmic account. This belief in itself is SO powerful!

GURUJI always said, speak to ME and I will answer. HE is our Father and Confidant! As such, I feel HIS Swaroop speaks to me. HIS lips curl into a smile, HIS eyes have a mischievous twinkle and sometimes they blink, and I can almost hear HIM speak! Lately, I started noticing that the spotlight that shines on HIS Swaroop is focused on a certain specific part of HIS image. This is a direct message and answer to my own thoughts. As an example, this morning, the spotlight was on HIS lips. I'm finalizing a contract with a new client today, and HIS message for me is "Speak supportively" and you shall get the contract! Another time, the spotlight was on HIS eye. That message was to "have clear vision". Yet another was on HIS heart – the message being "be compassionate in your dealings" and in following HIS command, I truly feel HIS guiding light.

JAI GURUJI!! SHUKRANA, SHUKRANA,
SHUKRANA

- *Smita Mohindra*

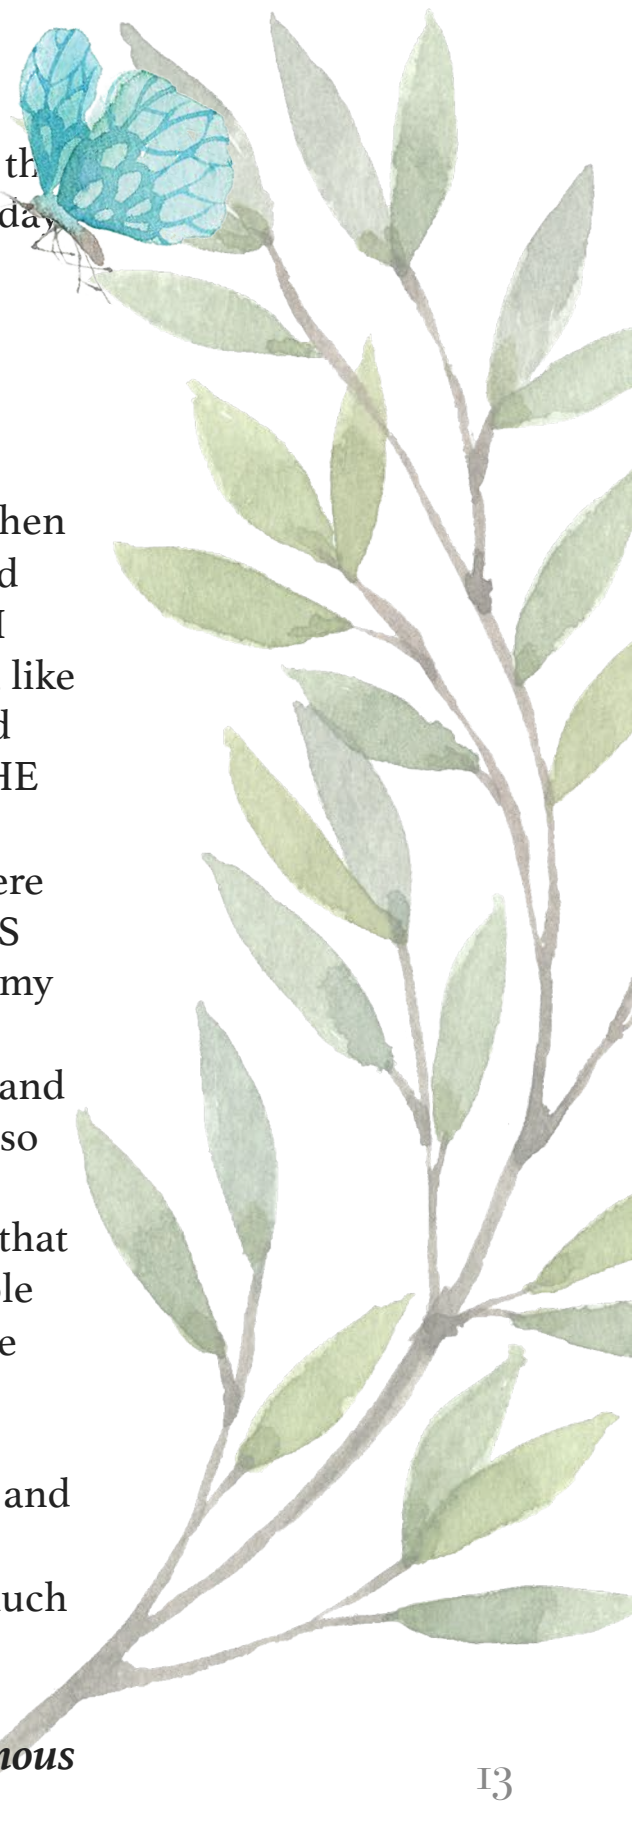

JAI GURUJI,

GURUJI has given immense blessings in the form of dreams and in the real world. Today I want to share about one of the dream darshans which is very, very close to my heart. After associating with GURUJI in 2012, I started going to satsangs regularly. One day, in my dream, I saw a huge ground and Sangat is sitting in it. Then I saw myself coming out of the car behind the sangat. From the front, I saw GURUJI coming towards me in a white safari suit, like when HE was young. I was kind of scared and I started walking towards GURUJI. HE took my name and I came closer to HIM slowly. I touched HIS lotus feet which were so soft, transparent, and pure. HE put HIS hand on my head and I started crying in my dream and started saying, "GURUJI, GURUJI" and my dream darshan ended and I realized that it wasn't the dream. It was so real, as I was sobbing like a baby when I woke up. Sangat ji, I felt so much love in that dream which I have never felt in my whole life and which I was longing for my entire life. That was the best feeling I have ever experienced, and I relive the beautiful moment whenever I think about it again and again.

Thank you, GURUJI, for showering so much love.

In Gratitude, JAI GURUJI.

Jai Guruji,

February 2020 - Guruji planned our India trip

Since we got connected to Guruji, we heard lot of stories about Bade Mandir and divine experiences that happened there. So, we also had a desire to go there but were not sure when and how it will happen. Since both of our family (parents and siblings) lives in Pune, whenever we visited India, it was difficult to go anywhere else. In November 2019, we got one good news that my niece's marriage has been fixed. It was decided that the wedding will take place in March 2020 in Pune. Since my daughter was graduating from high school, we were planning to visit India in June 2020. But when we got the news about marriage, we decided to go in March instead. Luckily, my daughter agreed to come even though she was going to miss the school for 2 weeks. We started to think if it will be possible for us to visit Bade Mandir during this India trip. We also wanted to visit Shirdi and other holy places of our family Gods. I was praying to Guruji to please call us to Bade Mandir this time. In December 2019, my niece got engaged in Pune. After that, suddenly her in-laws said since the engagement happened in Pune, let's do the wedding in Delhi (the boy is from Delhi). When we heard this, we were extremely happy. Then they said Delhi weather gets very hot starting from March, so let's do the wedding by end of February. We immediately booked our India tickets from February 19th thru' March 7th. Our whole trip was perfectly planned by Guruji. We visited Bade Mandir and all the holy places without any issues. We felt Guruji's presence everywhere. On March 7th, we came back to USA safely and within 2 days the COVID-19 effects started. On March 10th, my son's college (in Bay Area) declared lockdown and he also came home safely.

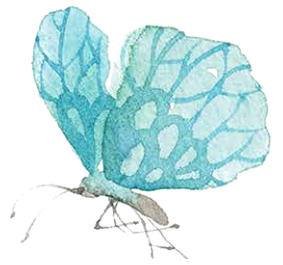

Jai Guruji!

February 2020 – Guruji calls us to Bade Mandir

On Feb 27th, 2020 I was at the Bade Mandir with my husband and daughter. This was our first visit to Bade Mandir, and it was the MOST divine experience ever. At 4 pm, Uber driver picked us up at our hotel. As soon as we opened the car door he said “Jai Guruji”. We felt very happy and positive. On the way he told us so many things about Guruji and miracles in his life. Since it was Thursday, we wanted to reach the temple early enough so that we can sit inside. Our driver tried his best to reach there as early as possible. By Guruji's grace, we got seated in the main hall right in front of Guruji's darbaar.

After having Chai Prasad, one Aunty sitting on my left side tapped me on my back and handed me one Guruji's swaroop. She gave one Swaroop to my husband too who was sitting right behind me. I smiled at her, took the Swaroop, did matha-tek to the swaroop and held it in my hands. That swaroop was new for me so even though I was looking at it, in my mind I was thinking about my favorite swaroop (the one in white chola where his right hand is on his right cheek). After about 6-7 minutes, the same Aunty tapped me again and handed me another swaroop and guess what? This swaroop was the one which is my favorite. I was SO Happy. I realized that my husband and I got Guruji's Swaroop but my daughter, who was sitting on my right side, did not get one. I was hoping she will get one too (one of the reasons we wanted to visit all the holy places was - she was going to graduate from high school and going to college soon, that means she was going to start a new chapter of her life).

When it was almost time to get ready for Langar prasad, the same aunty told us to turn around and face towards her. We both just turned around and my daughter sat between both of us. When that aunty saw her, she immediately handed one Swaroop to her and told her to keep it safe.

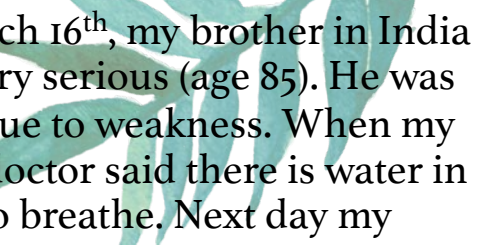

When Langar Prasad was served. I was sharing it with 3 other people unknown to me. Soon I came to know that Uncle sitting on my right was Guruji's old sangat. He told me about so many miracles Guruji did for his whole family. He said Guruji can cure anything. I felt really blessed with the whole experience.

Jai Guruji!

March 2020 – Guruji takes care of my father

On March 7th, I came back to US and on March 16th, my brother in India informed me that our father's condition is very serious (age 85). He was unable to breathe and was not able to walk due to weakness. When my brother took him to their family doctor, the doctor said there is water in his lungs and that's the reason he is unable to breathe. Next day my brother took him to a lung specialist. He removed 1.5 liters of water from my father's lungs. Then he told my brother that there could be malignancy in the lungs. He prescribed some medicines for my father and sent him home. After coming home, when my father looked at the medicines prescribed for him, he refused to take them. My father is a doctor himself and he kept saying these medicines are bad for him. My mother and brother thought he is acting like a kid, so they forced him to take it. But even after removing the water and taking medicine for 3-4 days, there was no improvement in his health. When I heard all this, I immediately told my bhabhi to keep Guruji's Swaroop under his pillow and I started praying to Guruji. Next day my brother took him to another specialist doctor. That day the hospital was too crowded because of Corona patients. There were more than 20 people waiting for treatment. But looking at my father's critical condition, they stated treating him first. When the specialist doctor checked my father's pulse, he immediately told that the problem is in his heart (and not lungs). He prescribed new medicines for him. When my father looked at the new medicines, he readily agreed to take those. Within 2-3 days, his breathing issue was gone, and his health started improving. Now it has been more than 3 months, and my father is feeling better each day.

Jai Guruji!

- Devki Hoshing

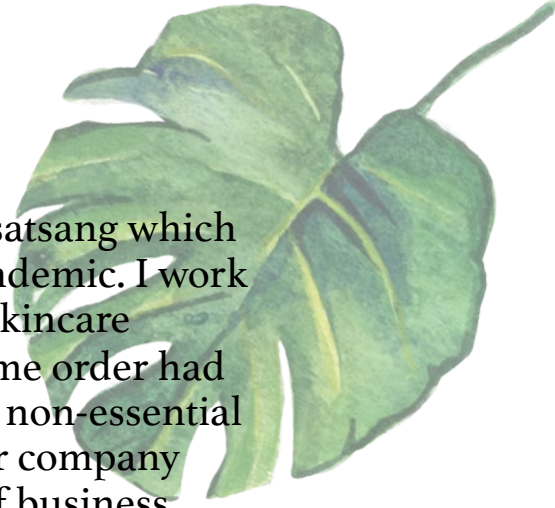

Guruji Maharaj saves a job

Jai Guruji Everyone. I want to share a recent satsang which happened with me during this COVID-19 pandemic. I work in the personal care industry and formulate skincare products. It was March 20th, when stay at home order had been issued for the state of California and all non-essential businesses had to be shut down, meaning our company would have to shut down due to our nature of business being non-essential. Somehow, I saw an article stating that FDA had allowed temporary compounding of hand sanitizers, lowering the OTC manufacturing restrictions. This allowed companies like ours which had the expertise and resources to manufacture but did not have the license, to produce sanitizers and counter the shortage in the market. I forwarded that article to my manager and started wrapping up for the day and maybe a foreseeable period of no onsite work.

Giving a brief background, I was on a student F-1 visa with my last chance of filing for H1-b lottery this year, so had pinned hopes of getting through to continue my stay in this country.

Before heading out, I am called to our Plant head and told that this might be it for me in the company, as the company is looking at an uncertain future with the pandemic having engulfed all our selling markets across the world. I am surprised as it is unimaginable to hear this, as a week before I was praised for my hard work and going above and beyond for the company. But, with Guruji's grace I keep my calm, come back to my lab, finish the remaining chores, and send an email to the CEO/owners requesting to keep me in the company, as a layoff at this stage would not only leave me jobless, but more than that jeopardize my chances to stay in this country as I would lose my H1b application while my F-1 visa would be ending. I send an email explaining this to the CEO and leave for home.

While on the way back, I am a little sad that I will have to unnecessarily devote efforts to continue to stay in this country, but am still calm and positive that Guruji has sent me here to USA, I just have to believe in him and find a way out. Not even once, am I questioning Guruji Maharaj or cursing my luck. 40 mins later, I reach home- jobless, looking at an uncertain future due to the visa issue, but still calm. I check my email, and cannot believe that my CEO has actually penned down a really long email, and that too a spontaneous reply in 10 minutes after my email! He reassures me that they are ready to back me and even ready to spend an exorbitant tuition fee for an admission to a school to help me study and still continue to be a part of the company!!

I was like Jai Guruji!!, thank you for blessing me so much, that I trusted you completely, even when it looked dark everywhere!

This is not all, our CEO actually wrote an appreciation email for me to the whole company, highlighting that how it was my email that brought it to their attention about this FDA notification which everyone had missed and made our company classify as an essential business, and we could manufacture hand sanitizers and continue to be open. I know this could have been anyone, but our **“Guru not only protects his disciples, but also ensures that his sangat’s head is always held high”!!!** The whole weekend, I kept on receiving congratulatory emails from all across the country thanking me for my contributions (when deep down I know, it was YOU, Guruji!!). Our owner’s benevolence has been sky-high as our company has been regularly donating hand sanitizers to various hospitals across LA County. And to add, I was laid off the last day I went to work and I returned a month later to a personal office at my work!! This is Guruji Maharaj!!!

Also, I got my H1B visa lottery and subsequent approval recently, so I can stay here for three years or till I have this job... Actually, Why should we worry? when Guruji Maharaj has already planned out our lives! **Our job is just to do our work, believe in him and enjoy the bliss we are blessed with!**

Jai Guruji Maharaj!!!

- Sukraat Chopra

At the outset, I would like to make a statement. I came to Guruji with negative baggage. My faith in God was weak, always wavering. Moreover, I am by nature a skeptic.

But by chance, I met a devotee of Guruji at a dinner party. He invited me to his house for discussion on matters of faith. I later realised he had invited me over to give me a sense of people of faith. That invitation served its purpose.

The devotee told me that before we had our discussion I should first attend a Satsang that is held in his house. I agreed. My first Satsang at Alkaji and Mohit's house will always remain green in my memory. The serene atmosphere, the friendly devotees, the Punjabi shabbads, and the sharing of experiences: all that made an impact on me.

After attending a few more Satsangs, it was not too long before Guruji began to manifest in my own life, speaking to me through friends and providing me with moments of clarity in situations where I needed some. I began to see how I could begin to improve my life once I opened myself up to the possibilities he offered me.

Before I knew of Guruji, I thought that no college-educated person with a scientific frame of mind will accept that a person born on this planet can have supernatural powers.

Yet, I now believe our Guruji has such powers. He came upon this earth as an ambassador of the god Shivji - nay, the god himself - for which hundreds (if not thousands) of his devotees can vouch, having seen him in physical form. In our Sangats, they are called "Old Sangats". In reality, there is no difference between Old Sangats and those like me who have joined him after he left his Chhola. We experience Guruji as if he was standing before us in physical form, as he has told us he would. He has given darshans to me, and will continue to give them to all who follow him across the globe.

I often think back to that first Satsang I attended. Guruji's pratima has remained in my mind and heart.

- Ravi Pradhan

I got connected to Guruji in 2018.

Like many others, I didn't use to believe in having a guru whom you go to seek advice. The reason was simple: if you believe that God exists, then you can worship and pray to him directly, without an intermediary.

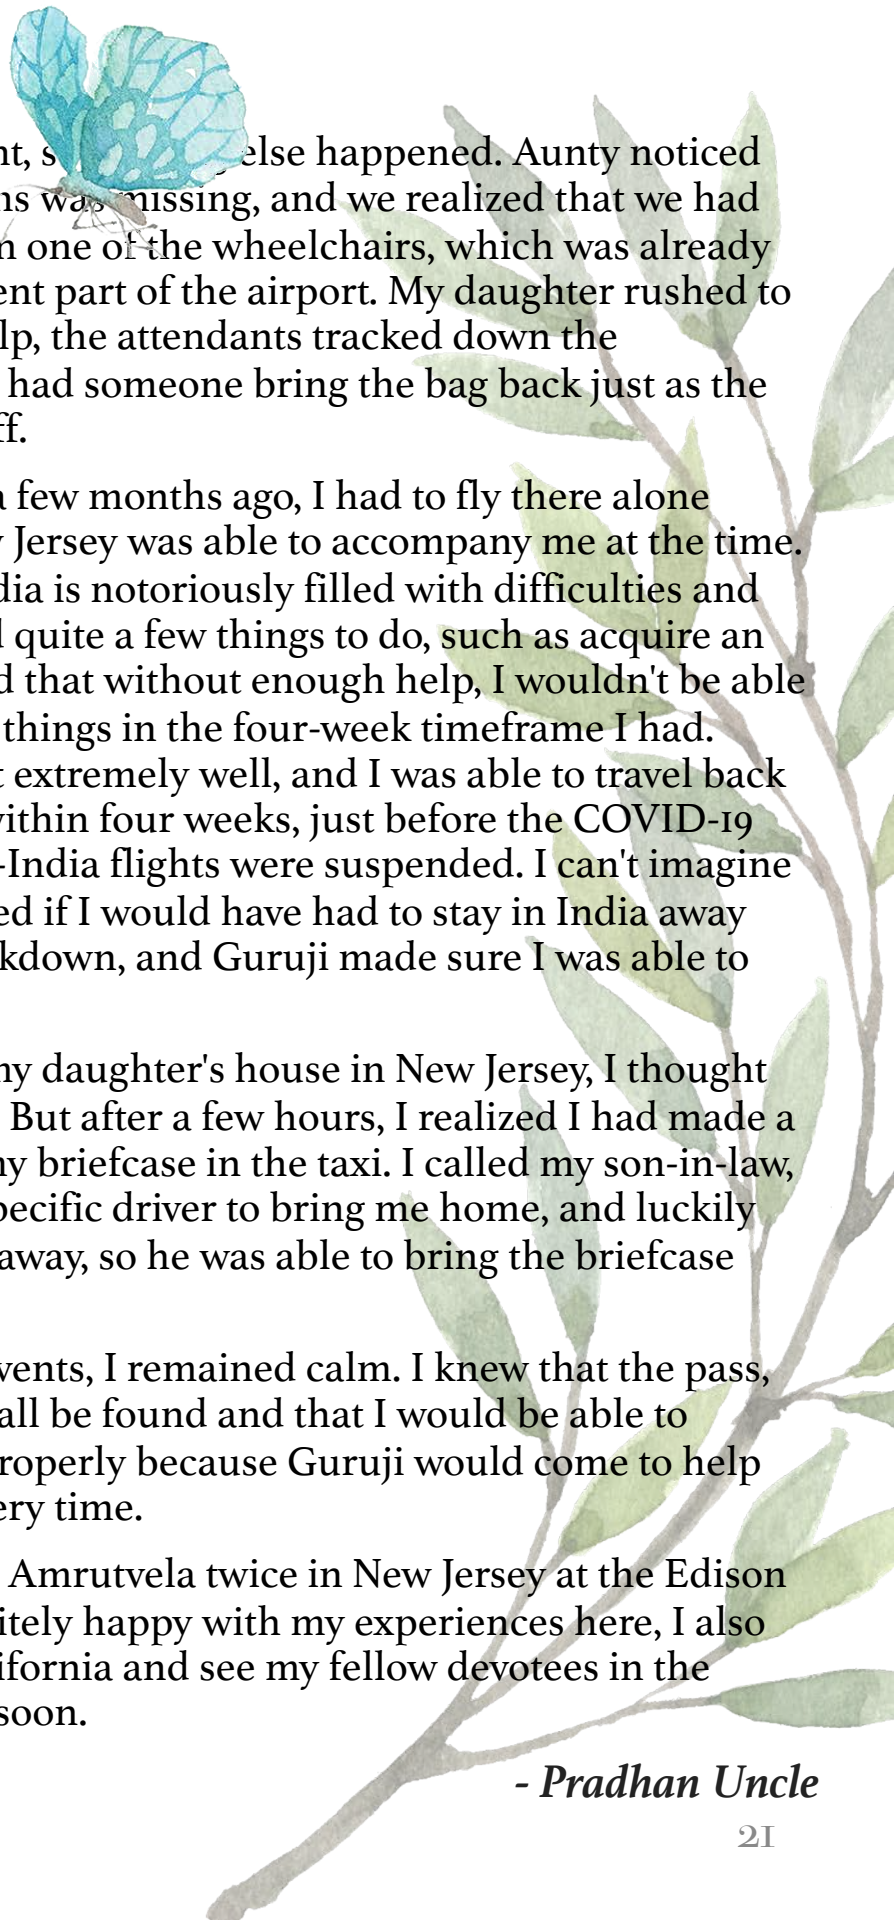

However, I have always been curious about why people go to gurus, and I am always open to discussing different faiths. This curiosity got me involved in a discussion with a devotee of our Guruji. I suspended my disbelief and attended a satsang at his place. The rest is history.

I have described my early experiences in California in the book that was published for Guruji's birthday last year, and I now have many new experiences.

Before my flight from California to New Jersey, I was sad because I thought I would be cut off from my guru pareevar for a long time; I thought that most of Guruji's devotees lived in California, and knew none in New Jersey. But, one devotee from our guru pareevar had asked me to deliver a package to her sister living in New Jersey, who is also a devotee, and I agreed. Her sister came to my house to pick up the package and informed me she was attending a satsang nearby, hosted by someone who happened to live in my own neighborhood. Thanks to this, I was able to get connected to devotees living close by, finding a mandir in New Jersey that I have now been to many times. To anyone else, these events would seem like a strange coincidence, but I recognized this as the work of Guruji.

At the airport on the way to New Jersey, aunty and I were both being escorted to our plane on wheelchairs, accompanied by our daughter. A few minutes before it was time to board, my daughter asked me where my boarding pass was. I couldn't find it and realized I had accidentally thrown it out with the wrapper of a sandwich I had been eating. She and I rushed to the trash can and dug out the pass in the nick of time, just before the garbage was collected.

After we boarded the flight, something else happened. Aunty noticed that her bag of medications was missing, and we realized that we had left it in a compartment on one of the wheelchairs, which was already long on its way to a different part of the airport. My daughter rushed to the gate desk; with her help, the attendants tracked down the wheelchair's location and had someone bring the bag back just as the plane was about to take off.

When I traveled to India a few months ago, I had to fly there alone because no one from New Jersey was able to accompany me at the time. Getting things done in India is notoriously filled with difficulties and inconveniences, and I had quite a few things to do, such as acquire an aadhar card. I was worried that without enough help, I wouldn't be able to accomplish all of these things in the four-week timeframe I had. However, everything went extremely well, and I was able to travel back to the U.S. (alone again) within four weeks, just before the COVID-19 lockdown began and U.S.-India flights were suspended. I can't imagine what would have happened if I would have had to stay in India away from my family under lockdown, and Guruji made sure I was able to finish my errands in time.

After making it home to my daughter's house in New Jersey, I thought everything had gone well. But after a few hours, I realized I had made a misstep: I had forgotten my briefcase in the taxi. I called my son-in-law, who had arranged for a specific driver to bring me home, and luckily the driver was not too far away, so he was able to bring the briefcase back quickly.

Throughout all of these events, I remained calm. I knew that the pass, bag, and briefcase would all be found and that I would be able to accomplish all my work properly because Guruji would come to help me; and indeed he did every time.

I have been able to attend Amrutvela twice in New Jersey at the Edison Mandir. While I am definitely happy with my experiences here, I also hope to travel back to California and see my fellow devotees in the California guru pareevar soon.

- Pradhan Uncle

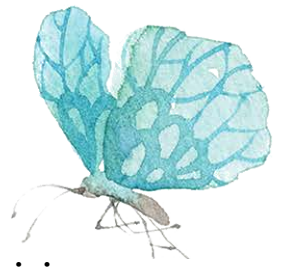

Jai Guruji pyaari Sangat, ever since we've come under Guruji's sharan everyday seems to pass through which is such bliss. We have no reason to complain or worry about anything with Guruji by our side. We only have to let go of all our worries, stress and anxiety and go with the flow.

We have been wanting to remodel our kitchen for many many years and never had a chance to do so as kids were young. A few months ago one evening both me and my husband sat down and casually were talking about the house and came to the agreement that a few areas in our house especially the kitchen needed to be renovated since everything is original from the 80s. Just a thought and we both agreed to it and let it be. The next day to our surprise our kitchen had a leak from the ceiling. Above our kitchen is the master bath and a pipe had a crack in it. This left us no choice other than to get started with the process. We were amazed at the timing of this incident and very well knew in our hearts that this is all the doing of none other than our Guru Maharaj. We thank him immensely from the bottom of our hearts and soul and pray and ask him to be by our sides for this lifetime and all the lifetimes to come. Shukrana Guruji, pal pal Shukrana.

” Jai Guru Ji “

Om Namho Shivaye ShivJi Sada Sahaye...
Om Namho Shivaye Guru Ji Sada Sahaye..!

In 2019 by grace of Guru ji , I got a chance to visit Bare Mandir Chatterpur, it was Thursday evening. This was my first visit to Bare Mandir, We parked our car and were waiting for the shuttle that would take us to the mandir .. in the meantime we asked an individual who was going towards the Mandir also what the place was called, he told us the place’s name .. we went to bare mandir .. as we came back from mandir we had forgotten which side we had parked our car, and after some unsuccessful searching,

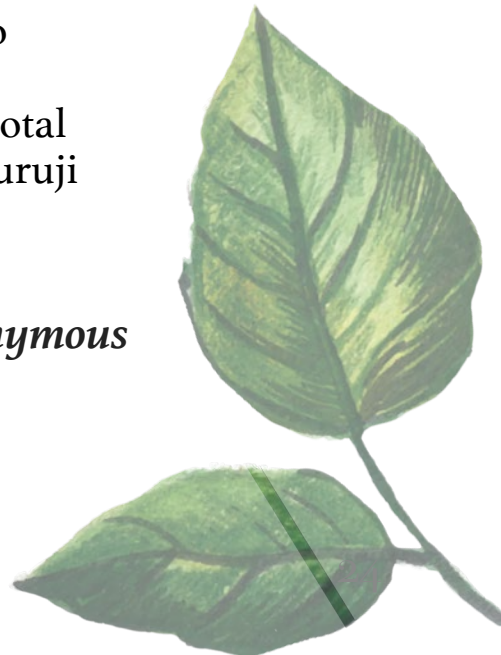

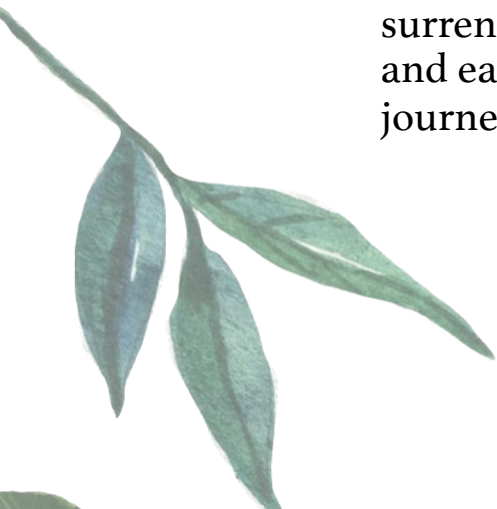

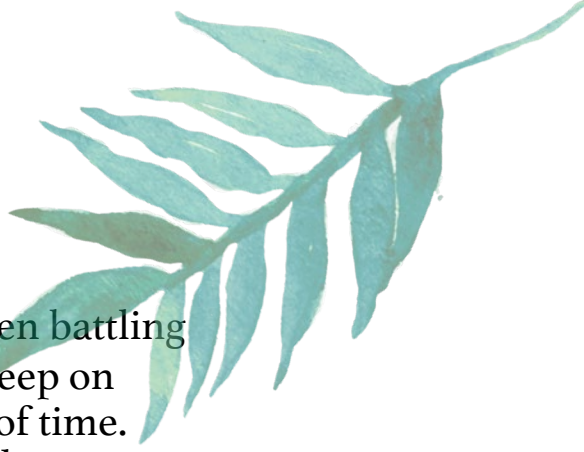

We were starting to get discouraged. We asked one sewadar who was controlling the traffic there that we are having trouble finding our car, he responded that we keep trying otherwise he would arrange some shuttle for us and they would help us to find the car. We continued our search, but were ultimately unsuccessful, in response sewadar instructed us take the shuttle. When we got on to the shuttle, we did not notice it was the same individual but sewadar told us he was the same person we talked to him earlier..we told him we were looking for our car, he responded “Aunty I know where you have parked your car”. He Immediately took us to our car and stopped it next to the car (It was surprise for us that how did he know this was our car) he asked us to turn on the lights of the car .. and that was indeed our car .. it was only Guru Ji who took care of us ..Jai Guru Ji..Shukrana Guru Ji!

- *Anonymous*

For quite a while I have been battling some issues. It seemed to keep on dragging for a long period of time. Many stumbling block on the way. Somewhere in this journey I had left it to Guruji to do whatever he desired or whichever way he wanted to take it. When people talked about absolute surrender I could not really fathom The meant and what that entailed. A couple of weeks ago I was on Facebook and suddenly saw Guruji's swaroop and a saying a saying popped up that seemed to say that the time had come now and everything would settle down before the month ran out. And lo and behold it all fell into place by Jund 26th. I was not able to find that post again. People often mentioned In their satsangs that there are signs which one needs to recognize. Now I am beginning to understand how to receive the signals. Also understanding the meaning of total surrender. Its a journey with Guruji and each one of us has our own journey.

Om Namah Shivay, Shivji Sada Sahay

Guruji blessed my mom and made my first visit to Bade Mandir possible

Jai Guruji, Shukrana Guruji! First and foremost, Shukrana to Guruji for blessing me to be part of his Sangat. I have no other words but only and only Shukrana for Guruji making me part of his Sangat. Thank you for being the guiding light in my life, for all the beautiful experiences and for all your blessings.

I have only been connected with Guruji since October 2018 but I do feel and believe that he has been watching over me much longer and blessing me. My connection with Guruji was not instant but the kind of peace I felt when I first attended his Satsang, was what I was looking for and needed at that time in my life. I liked what I heard about Guruji through the Satsangs, how his preachings were simple and mostly just about leading a good and honest life, how everyone was equal in his eyes, how his blessings were through the Langar Prasad and all he really wanted us to just listens to Shabads and lead a good life. Such a simple and practical approach of our Guruji!

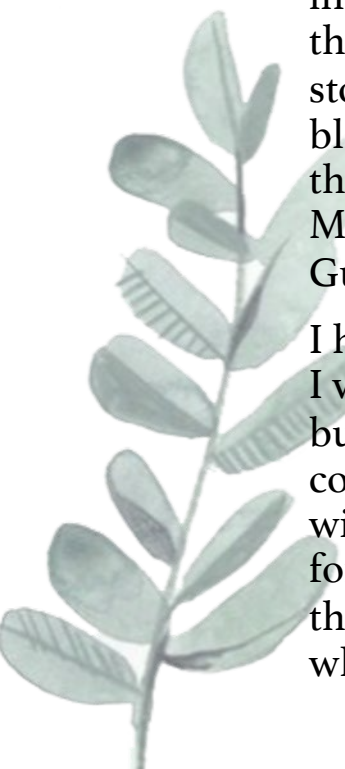

By February 2019, my faith in Guruji had grown and I had been wanting to visit Bade Mandir after hearing everyone speak about it. I had not been to India in 7 years and there were no plans on the horizon. One day, I received the news that my mother was diagnosed with cancer, 1 st stage. I was shocked and shattered, given we had no family history and it just sprung upon us out of nowhere. Anyways, I knew in my heart that my mother would not be able to handle chemotherapy, mentally and physically, so I started praying to Guruji to avoid that. I researched for every test that she had to take and I knew what result combinations I wanted to see in the reports so she could avoid chemotherapy. Before every report was due, I would tell Guruji what I wanted to see in the report and that's how overall it would turn out. After all the testing and her surgery, it was concluded that she would not have to get chemotherapy, just radiation. Shukrana Guruji.

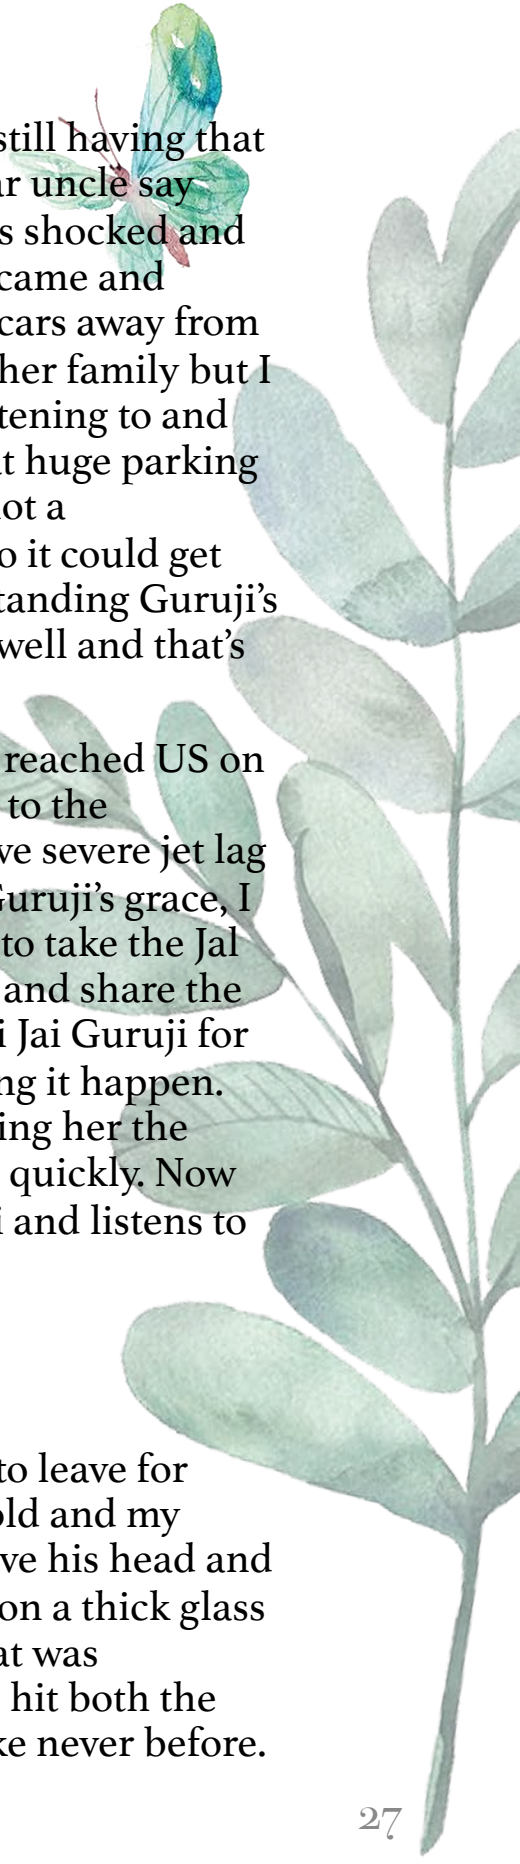

It was decided that I would go to India towards the end of her radiation sessions and if the doctors would allow, I would bring her back with me to US. My mother was in Ahmedabad and before leaving US, I did not know if I would be able to make it Delhi to visit Bade Mandir so I left it upon Guruji. Once I was there, I realized my mother had been doing well with radiation and I could take a few days to visit Delhi.

Before even leaving for India, the only wish in my heart was to visit Bade Mandir and if Guruji felt it was ok, I wanted to bring Jal Prasad back for my family and Sangat here. I had no idea what to expect at Bade Mandir, I had not even looked up anything online either. A Sangat here had told me to be there by 5-5:30pm before the lines get long. I got a little late on the day of my visit and got there around 6 and the lines were long. I just followed the protocol and was in awe of how beautiful the mandir was and how seamless everything was. As we kept moving further in groups and I finally had the opportunity to be inside the main Darbar, the Sewadar uncle made me sit right in front (in the second line). I was ecstatic and thankful. As we settled, the Shabad that was playing stopped and the Mantra Jaap started. I really feel very blessed that Guruji made me sit in the main darbar for the Mantra Jaap. He made my first visit at the Bade Mandir an unforgettable experience. Shukrana Guruji.

I had the divine langar prasad and as I was walking out I was still hoping that I could get Jal Prasad somehow but the Sewadars were all so busy so I did not have the courage to disturb them. With no hope that my wish will be fulfilled, I came out of the Mandir. I had to wait for my friend to pick me up so I just walked towards the parking lot and went towards the general area where she had dropped me.

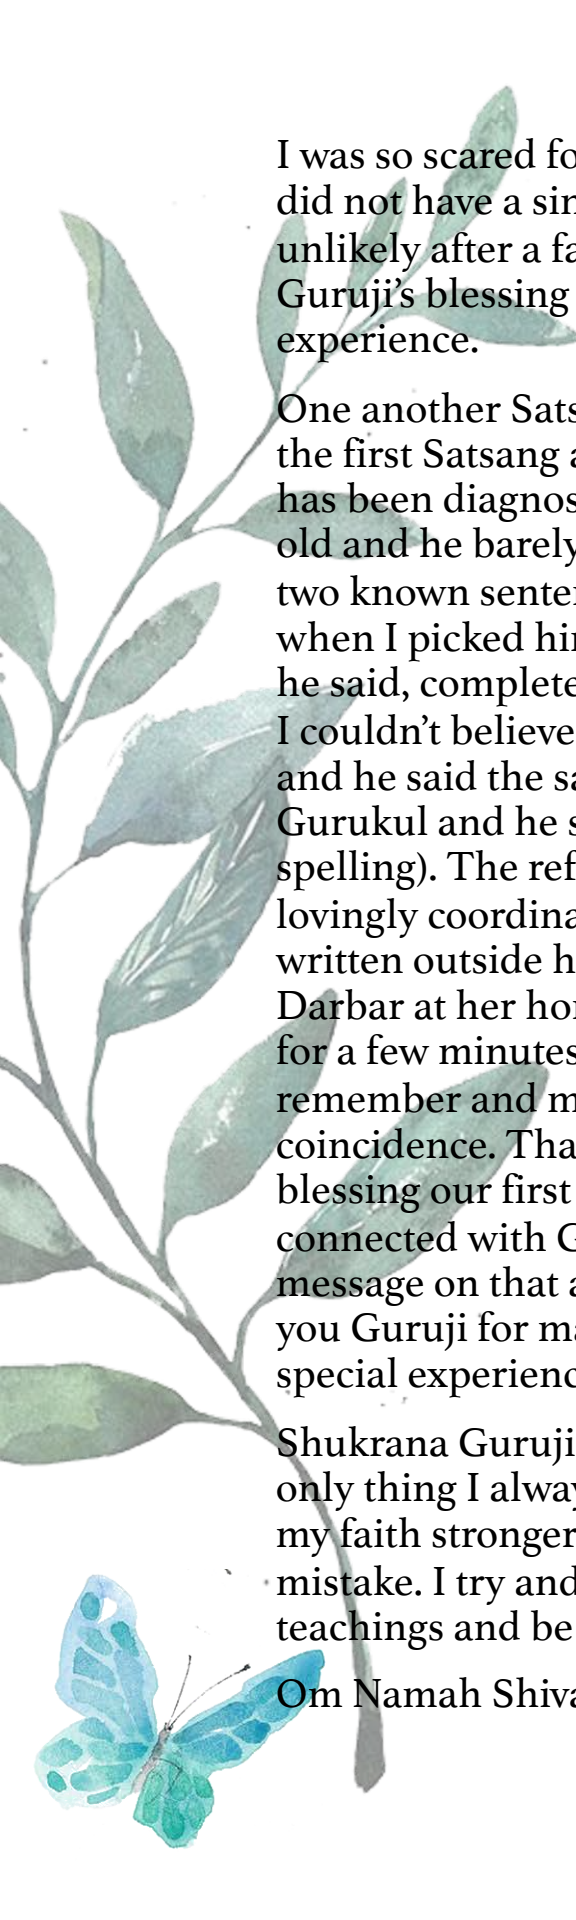

I must have been waiting for almost half hour still having that secret wish in my heart when I heard a Sewadar uncle say loudly – ‘In Aunty ko Jal Prasad De Dena’. I was shocked and turned around to realize that a Sewadar uncle came and opened the back of car, which was parked two cars away from where I was standing, to give Jal Prasad to another family but I knew in my heart that it was Guruji’s way of listening to and fulfilling my wish. For me to be standing in that huge parking lot next to a car which had the Jal Prasad was not a coincidence. For that uncle to say it so loudly so it could get my attention was not a coincidence. So understanding Guruji’s signal, I asked Sewadar uncle for Jal Prasad as well and that’s how Guruji fulfilled my little wish.

In continuation of this Satsang, my mom and I reached US on 30 th May and I was not sure if I would make it to the Mahasamadhi satsang next day as I usually have severe jet lag and it takes me roughly a week to recover. By Guruji’s grace, I did not feel any jet lag this time and I was able to take the Jal Prasad with me and attend the special Satsang and share the divine Jal Prasad with the Pyari Sangat here. Jai Jai Guruji for listening to even the smallest wishes and making it happen. Shukrana Guruji for blessing my mom and giving her the minimum possible discomfort and healing her quickly. Now with Guruji’s grace, even she believes in Guruji and listens to the Satsangs all the time.

Satsangs of my son

This Satsang happened the night before I was to leave for India to be with my mom. My son was 5 years old and my husband was playing with him, lifting him above his head and suddenly he lost balance and dropped my son on a thick glass table with wrought iron corner extensions. That was approximately a 6 feet fall for my son, his head hit both the glass and wrought iron corners and he cried like never before.

I was so scared for my son but Shukrana to Guruji that my son did not have a single bruise, bump or any concussion which is unlikely after a fall like that. Only and Only because of Guruji's blessing that he walked away safely from this experience.

One another Satsang that involves my son is from the day of the first Satsang at our house on October 24th, 2019. My son has been diagnosed with mild Autism since he was 18 months old and he barely spoke at that time, just a few words, one or two known sentences. That afternoon before the Satsang when I picked him up from school and put him in his car seat, he said, completely out of the blue – 'I want to go to Gurukul'. I couldn't believe what I had heard so I asked him to repeat and he said the same thing. So to confirm I asked him to spell Gurukul and he said G-U-R-U-K-A-L (pretty close to the actual spelling). The reference here is that the Sangat Aunty who lovingly coordinates everything here have 'GURUKUL' written outside her house and have a beautiful Guruji's Darbar at her home. My son must have visited her place just for a few minutes, 8-9 months before this day, but for him to remember and mention on the day of our first Satsang is not a coincidence. That was Guruji's way of telling me that he is blessing our first Satsang. My son was the reason I got connected with Guruji and he chose him to convey his message on that auspicious day in our lives. Thank you, thank you Guruji for making us feel your presence through these special experiences and listening to us.

Shukrana Guruji again for all your love and blessings. The only thing I always and forever will ask you is to keep making my faith stronger and to please forgive me if I make any mistake. I try and will continue to always follow your teachings and be a better person.

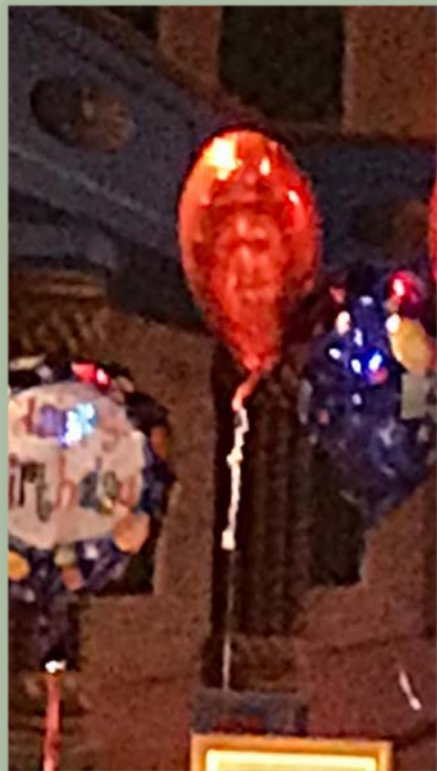

Om Namah Shivay, Guruji Sada Sahay

- Jolly Khabrani

Jai Guruji

Anantam shukrana Guruji for giving us such a beautiful guru parivaar. I got connected with Guruji in 2016. My satsang is from two years back on Guruji s birthday. We were at Guruji s birthday celebration at Chinmaya mission Irvine. It was beautiful celebration and we were there for a little bit as we had a family gathering that day to attend later in the evening. So after having chai prasad and saw few performances we were ready to leave and as I was coming out I realized I didn't even take any pics of beautiful darbaar of Guruji. So from very far right by the entrance door I clicked few pics of darbaar. So later that night when we got back from our other family get together I wanted to see all the photos I took at the birthday celebration. And sangat ji I had heard that some sangat see Om darshan and some sangat sees different deities in Guruji s darbaar so while opening the pics I asked Guruji (chalo Guruji aaj mujhe bhi darshan de hi do) and you won't believe sangat ji as I was zooming the pic Guruji s Swaroop started forming on the balloon and I got amazed and scared at the same time. I asked my husband do you see anything on the balloon he said yes I see Guruji. I asked my daughter she said the same thing. And I was in tears as I asked Guruji for darshans and he immediately fulfilled my wish. Aise hai hamare Guruji. I still have those Swaroop in my camera roll saved. Would like to share with you all too. Till day some sangat sees sakshat Shivji and some sees Guruji on that red balloon Swaroop. After that Guruji ne bahut darshan diye in different different forms. Blessed to be in Guruji s sharan and found my Beautiful Guruparivaar. Shukrana shukrana shukrana Guruji. Apni kripa aap hum sab pe banaye rakhna aur sab par mehar bhara haath rakho. Apna naam do.

- Rosy Dang

Guruji is Shiva, Guruji is Shakti, Guruji is One Love

About two years ago, I used to listen to Mahishasura Mardini regularly, a sacred chant for Goddess Durga. During that time, I received a Dream Darshan by Guruji. Guruji was sitting on a majestic stage, wearing Purple Chola, and a Satsang was going on in his Divine Presence. In front of Guruji, priests from Ma Vaishno Devi temple (Pilgrimage for Ma Durga devotees) were trying to sing Mahishasura Mardini. As they were trying to sing, no voice would come out of their mouths, despite a lot of attempts. Upon seeing this, I got very excited as I wanted to sing. I raised my hand like a school kid, and excitedly said: "Guruji, I will sing, I know the words for the chant!" Guruji smiled and nodded for me to come and sing. I very excitedly sat at the Harmonium to sing the sacred chant. I tried and tried, but no voice would come out of my mouth. Every time I tried singing, my mouth got filled by Saag Prasad from Bade Mandir. I looked at Guruji, and He started laughing!

In another Dream Darshan by Guruji, this happened on the first day of Navratri in September 2019. Guruji was walking very quickly, and I, along with three or four Sangat were trying to follow Him. He entered a room, and then sat on His Gaddi. We all surrounded Him intently. Guruji asked me: "What is 3 square?" I replied: "Guruji, 9". Then Guruji said: "Navratri!" One Sewadar then started walking towards Guruji and all of us with a huge Swaroop of Goddess Durga.

Another time, I received a Dream Darshan in which I saw Hundreds of Gurus from different spiritual paths. Next to their image was written in Bold letters: One Deeksha. The image of all the Gurus converged into an image of Goddess Durga. Next to Her Swaroop was written: One Shakti. Durga Ma's image converged into a Female form that looked like Goddess Parvati (Lord Shiva's wife), and next to Her Swaroop was written: One Love.

One Deeksha. One Shakti. One Love.

Awwal Allah Noor Upaya, Kudrat Ke Sabh Bandey

Ek Noor Te Sabh Jag Upjeya, Kaun Bhale Kau Mandey

Jai Guruji.

- Anshuman Chadda

Jai Guruji Maharaj

Guru Guru Guru kar Mann mor

Guru bina main nahi hor

Anantam Anantam Shukrana to Guruji for taking me in his sharan.

This Satsang is about Guruji's telepathy & his ways of blessings. I had been thinking many times that whenever I visit India next time, I would want to go Dugri Mandir. And I used to think that my Uncle usually visits India for 2 weeks & I stay longer....So I can go to Dugri after he leaves for US as didn't think he would be interested in visiting Dugri. These thoughts were just inside me. There was no plan of going to India whatsoever. Suddenly one morning my uncle tell me he got a dream. It goes like this....he gets a wedding kind of a card in mail in gold & red. And the card said- Your Wife Roma ne application daali thhi Dugri aane ki, vo approve ho gai hai & aap Dugri aa sakte hain. We both were pleasantly happily surprised about the dream. As my uncle had not idea about me wanting to go to Dugri & he himself had never thought of going as well. In 2019, our India trip was finalized within 2 weeks. And Guruji called us to Dugri Mandir in August 2019. And the way Guruji had planned our visit....He made us sit right next to his Darbaar for 3.5 hrs. And same day he even took us to Jalandhar Mandir.

And from next month Jalandhar Mandir announced that their mandir will close on the day Dugri Mandir opens.

It is all about GURUJI & nothing about us.

Shukrana Guruji

Dhan Dhan Guruji

- Roma Guliani

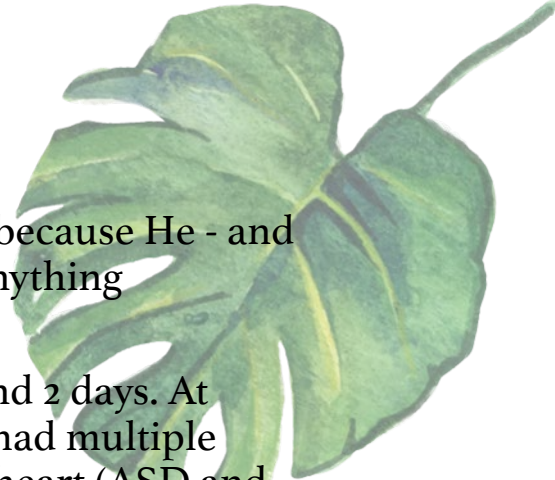

Guruji's Own Child

I will start by giving my Shukrana to Guruji, because He - and ONLY He - can and has the power to make anything POSSIBLE.

Our son was born prematurely at 33 weeks and 2 days. At birth, he weighed a mere 1.5kg/3.3lbs and he had multiple congenital issues, including two holes in his heart (ASD and VSD) and suffered from coarctation of aorta (narrowing of artery that pumps blood from heart to rest of the body). A surgery was performed to correct the coarctation when he was only about a month old, and weighed 1.4kg. While the surgery was successful, despite 0.01% chance, he became ventilator dependent and the following 5 months were training him to breathe on his own. ASD and VSD were still both present. He finally fought through – at odds of 1 in 20Million or worse – and we got to hold him in our arms for the first time at 5 months of age – it was the Christmas of 2010.

He has been having ongoing check-ups since then. In one such check-up with his cardiologist, we were informed that the ASD closed on it's own when he was 6 months old. At this time, we were not “connected” with GURUJI but are you ever not “connected” with him? Perhaps the right way to say it is, we did not know who to thank and, looking back, I know without a doubt that the MIRACLE MAN behind it, was OUR GURUJI :). While the ASD closed, VSD was at 40% gradient and his baseline heart rate continued to much faster than other kids, but we had to started to live our “normal lives”. This entire time, of course, we consulted with many doctors around the globe - all pretty much gave the same verdict that typically VSD doesn't close on its own and definitely at that gradient, the chances are none. We were told that it may need intervention at some point in the future so we will keep monitoring it. Then, about a couple of years ago at one of the check-ups we were informed that the gradient reduced to 20%.

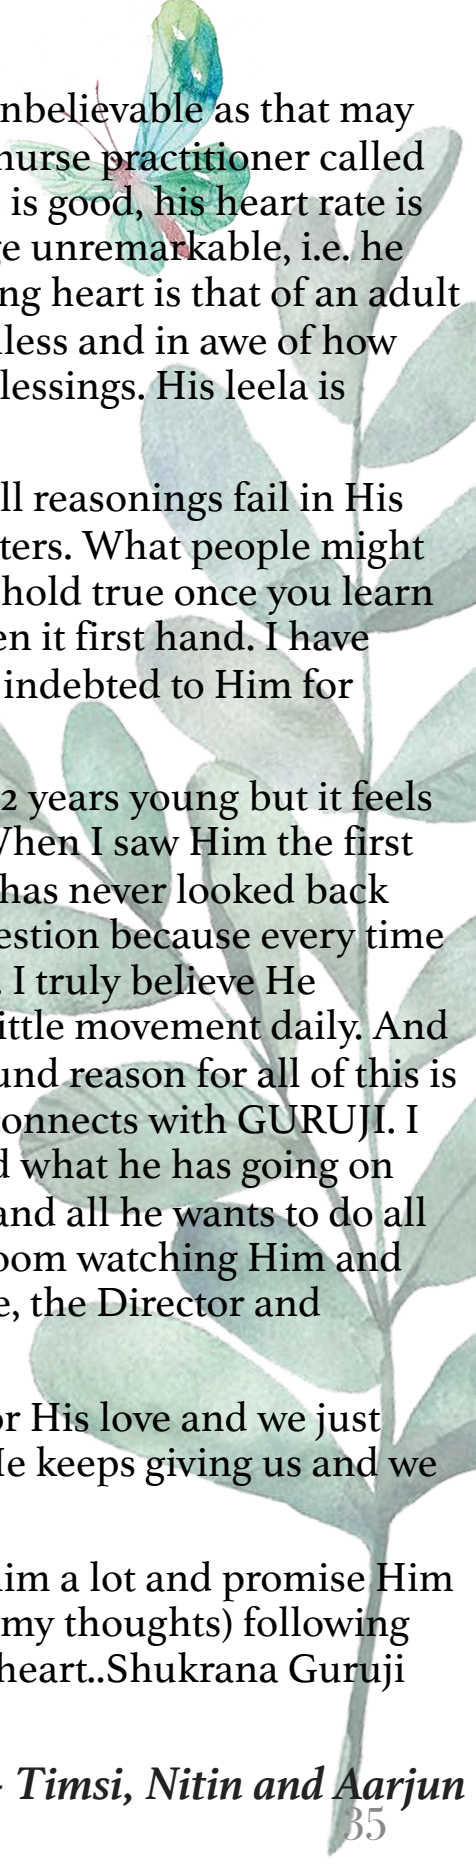

Even then we didn't know about GURUJI but, as they say, before he comes face to face with you, he starts preparing for his entry in your life and HIS entry in our lives has been long in the making, since the very day I conceived my son in my womb.

Now fast forwarding to the present times, throughout this lockdown, with His grace we continued to do Satsang every Thursday in our home and Guruji kept showing me formations of heart in the 'second' of everything I was making for langar prasad – be it a poori, a roti, a paratha or even an uttapam. They all kept changing in the shape of a heart and all were **second** in the order. I kept asking myself what message is He trying to give me, and I thought to myself, is it about Aarjun's heart? Is it the **second** hole in his heart? Could it be possible? Coz doctors clearly made it sound like it was impossible and we had made our peace with it, but what is impossible? What is impossible for Him?

On June 26th 2020, my husband took my son for another one of the regular check-ups with his new cardiologist. As the cardiologist performed EKG and Ultrasound, he found no hole. Wait, that's not possible? My husband asked the doctor to check again – nothing. He asked again a third time – still nothing. At this point, the cardiologist gave up and showed my husband the actual ultrasound and pointed to the areas where the holes normally are and challenged my husband to find it – of course, there was no hole. The impossible had become possible. The unthinkable had manifested.

During the conclusion of this unforgettable meeting, the cardiologist put a device on my son's chest, that would measure his heart's performance and give him a baseline of how his heart functions, heart rate and patters.

When we returned the device, a week later, as unbelievable as that may sound, another surprising event occurred. The nurse practitioner called and nonchalantly informed us that the baseline is good, his heart rate is in normal ranges, and the reading is by and large unremarkable, i.e. he has a normal functioning heart. In fact, his resting heart is that of an adult athlete. Honestly, I have been absolutely speechless and in awe of how much can He love you and grace you with His blessings. His leela is aprampaar!!!

I have heard numerous times that science and all reasonings fail in His presence. When He takes over nothing else matters. What people might tell you out of the logic of their brain will never hold true once you learn the art to Surrender in His Lotus Feet. I have seen it first hand. I have experienced it over and over again and I will be indebted to Him for blessing us with such a beautiful life.

My literal admission in His darbar may only be 2 years young but it feels like I have known Him for seven lives already. When I saw Him the first time, I was revered by His Aura, my connection has never looked back since, I have never been able to ask Him any question because every time I look at His sparkling face, I am left speechless. I truly believe He commands our lives, our household and every little movement daily. And if I am completely honest, I feel the more profound reason for all of this is our son - he is the key link because the way he connects with GURUJI. I don't think we would ever be able to understand what he has going on with GURUJI is extremely special. He is only 9 and all he wants to do all day is keep listening to Shabads and sit in His room watching Him and talking to Him. We are mere managers in his life, the Director and Chairman is the sole Almighty!

No amount of Thank You can ever be enough for His love and we just can't do it without him - we don't have it in us. He keeps giving us and we keep receiving it - that's all we can do it.

But one thing I can do is to tell Him that I love him a lot and promise Him to try and be a better person (in my actions and my thoughts) following His commandments, keeping them close to my heart..Shukrana Guruji Har Pal, life is perfect because life is YOU!

- *Timsi, Nitin and Aarjun*

Jai Guruji

With minds being over stressed & fear running all over amid coronavirus, we are blessed to have Guruji's blessings & blessed to have a Guru parivar.

It was a stressful moment for my family when my brother and our domestic help got covid positive. The domestic help had been cooking & serving food to the family including my parents who are above 65 yrs. We all had to get their tests done as there were high chances of them catching the virus from the helper as she had been going in their rooms and serving them everything.

Like always, Guruji's grace & blessings showered. My sister who is a staunch devotee of Guruji & lives in USA got a message from another Guruji devotee, Nancy aunty about a Mahaprasad. Nancy aunty was blessed by Guruji in the month of March & was told how to make this Mahaprasad. She messaged me the details. I quickly prepared it while chanting Guruji's Maha mantra.

Dropped it to my family whose reports were awaited. With all the faith, they ate the prasad & were blessed by Guruji.

When the reports came, none of them got positive. Even the Doctor was surprised and happy to see the reports as he was also expecting Positive covid report. We all need to have 100% faith in our Guru & believe that with his blessings & presence around us, we are protected like a baby in a mother's womb.

Jai Guruji

Shukrana Guruji

- Roma Guliani

Mere Meet Guru Dev – Satyam Shivam Sundeam

Tumse milkar Guruji na jane kyu aur bhi kuchh
yaad aata hai, yaad aata hai

Aaj ka apna pyan nahi hai, janmo ka ye nata hai, ye
nata hai

My heartfelt gratitude to our loving GURUJI and I
am forever thankful for His infinite blessings.

JAI GURUJI

In this time of lockdown and social distancing, it's
surprising to find that my divine connection with
Guruji has grown deeper every day. Listening to
other satsangs, Gurbani and reading His words gives
me clarity and guidance through our journey of life.
Prayer is immensely powerful, and it's the main way
through which we communicate with God.

Jai Guru Ji Maharaj , and Jai Guruji to Pyari Sangat Ji

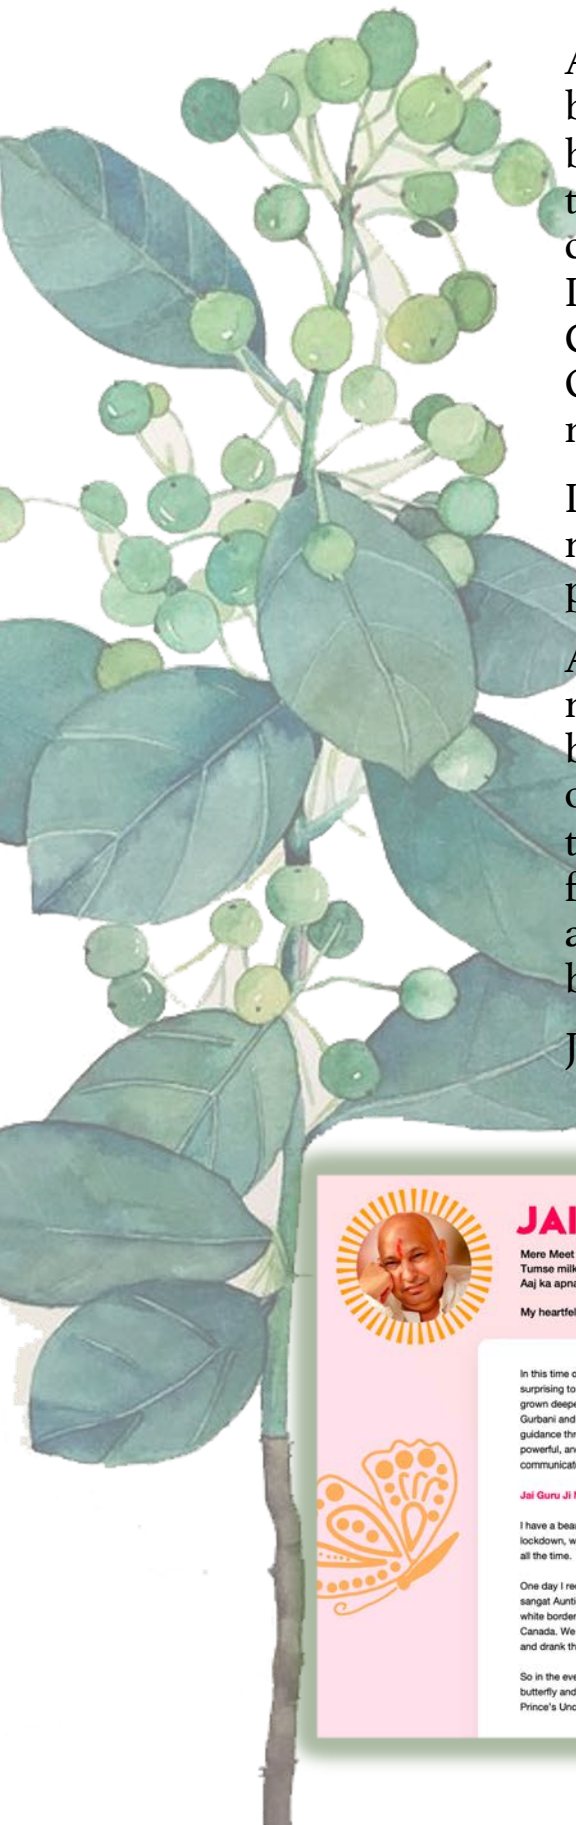

I have a beautiful satsang to share. In this time of
lockdown, we feel Guruji's love and blessings are
with us all the time.

One day I received a video message from one of our
sangat Aunties where we saw a brown butterfly with
a white border flying around their house in
Montreal, Canada. We observed it sitting on Prince
Uncle's shoulder and drank the honey water out of
bowl.

So in the evening I was talking to Guru Ji about that
butterfly and how beautifully darshan Guruji has
shown in Prince's Uncle home.

When I showed this miraculous video to my
husband, he said after watching the video that this
darshan is as good as we saw honey varsha in Las
Vegas.

After two days I was sitting in my backyard and still thinking about that butterfly and in the next moment I saw the exact same color and size butterfly comes in our back yard and flies over me! I was so happy and surprised to see Guruji's Mahima! I went inside thanked Our Guruji for his immense love and told my husband what I saw.

I also told Guruji that my husband did not get to see so please please show your presence to him as well.

At evening time, I was in the kitchen making tea and my husband was in the backyard. And suddenly he saw a shadow on the ground and he looked up, and there was sangat ji same brown butterfly flew over his head! And we felt so blessed and thanks to Guruji for all His love and blessings.

Jai Guruji

Guruji ki Mahima

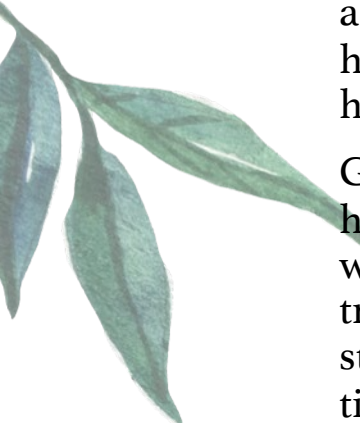

Jai Guruji..Shukrana Guruji..

After not being able to continue on the career path I aspired most of my life. Getting a job seemed impossible. I half-heartedly did a short course in BA, with no intentions of pursuing it any further. Started interviewing, cause it was the need of the hour. I would not even make it past the first round. Needless to say, had given up on being able to find a job. About two years ago, I got called into an in-person interview. At this point, I accepted it as Guruji's merzi and his immense kripa. I was ready to accept what I thought was His plan for me. The interview went well, the company gave me a joining date. However, the consulting firm tried negotiating and then just did not contact me again. Again, I thought Guruji did not want this cause I also did not want it. From here on, I quit applying or interviewing. A few weeks later, around Guruji's birthday 2018, a friend called me with a position that was looking to hire immediately, which he thought I was a good fit for. Again, I went through a few rounds of interview and did not hear anything back. Late July, the consulting company calls to give me starting date with details to get a background check. I was amazed, surprised, happy. Fast-forward- Week one, the client tells me the position they hired me for had been closed by the time I got onboarded. Giving me a few days to find something else. I felt hopeless. Nothing seemed to go right for me. The next working day, the Client manager, calls me in and asks to prepare for a position that had internally opened, despite giving it my 100% I did not get selected. Two days later, the manager recommends my name for a different position, this time without my knowledge.

I am put through another interview, very casual. Realizing, I had no exposure to, and interestingly, higher up in position, being optimistic was out of the question. Guruji's plan was indeed, far mightier than my imagination. Within a few hours, life had changed course. The job was a more convenient commute, paid better, and did not require the kind of work I was hired for, because Guruji knew, I would have not been able to pull that off.

Guruji's Blessings are countless. To be honest, it is not always easy to trust his ways and his timing. Through all the troubles and tubulations of life, I only find strength and peace in his sharan. With time, I've start to feel his love in every little working of life, reassuring me His presence and cementing my faith

Shukrana Guruji

- *Anonymous*

Jai Guruji

Pal Pal Shukrana Guruji

Koti Koti Shukrana Guruji

Anantam Shukrana Pyare Guruji

I, absolutely have no words to express His Aseem Kripa!

Although I strongly feel His divine presence almost on a daily basis, there are certain instances where He has made sure that He is undoubtedly present among us and within us and here with us. Bas yahin hain.

During my last visit to India in November 2019, there have been innumerable instances where I strongly felt His presence. To start with, I would like to share my best Satsang so far.

During my visit, I had gone to visit my parents in South Delhi and was staying there for a few nights. One night as I went to sleep, I woke up after a couple of hours but was somehow unable to open my eyes and was crying out loud in pain and saying my whole body is aching badly and I had very high fever. I even called out my sister's name who was sleeping in the adjacent room asking her to give me a medicine as I was feeling very restless and was not able to get up and get it. I even heard her telling me back that I should go back to sleep and it's all due to exhaustion. I was still restless and couldn't open my eyes still.

A few minutes later, I felt a very heavy hand comforting me and calming me down with fingers going over my hair and head and telling me "*Jhaliye, tu fikar na kara kar! Bas aish kar! Sab theek ho jaana hai. Main Hoon na!*" As far as I remembered, I was totally unable to open my eyes but kept saying thinking that was my dad, "Papa, Please go and sleep. Do not disturb your sleep. I will be fine." But he insisted to stay there and continue putting his hand on my head.

I distinctively remember that I even said, “Papa, you are acting like I am a child. When I was little and would have fever, you would sit by my bedside and do the same thing. But now even my daughter is soon turning to be a teenager. I am not a kid any more so please go and sleep.” And after that I did not remember anything and apparently went to sleep.

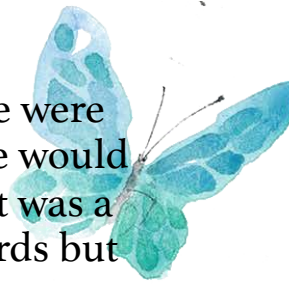

That same day, I woke up all of a sudden, feeling very excited and unreasonably happy and noticed that there was a chair right next to my bed and side table and had to move it to be able to put my feet down on floor as I was trying to get out of bed. I found it strange as I was wondering I had not put any chair facing to my pillow side when I was getting in my bed last night. I also heard beautiful voice of “Prabhat Pheri”, which literally means a group of people taking early morning rounds around the society while reciting shabads. Very excitedly I ran to the balcony and saw and heard them and was very happy. I don’t know what happened and I had a very strong urge to go and visit nearby Gurdwara. So early morning, I took bath and got ready and wanted to go. I came out of my room and saw everyone else was still sleeping and came and tried to wake up my sister telling her I really wanted to go to gurdwara at the time and she was shocked to see me dressed so early and pleading her to either take me or let me go. After convincing her that I will be ok, I stepped out and started walking but I was being pulled to a farther Gurdwara and did not go to the one nearby the house. As soon as I entered the gurdwara, I was completely mesmerized as there were tons and tons of beautiful red roses all laying around and sewadars were arranging them to decorate the whole pathway to “Guru Granth Sahib” and as soon as I did “matha Tek”, raggis started singing the Shabad “Main Vadbhagi Guru Darshan Deyo”! I had never heard this shabad and had no clue where it was originally from.

As far as I remember, I was extremely happy with out any reason and tears were rolling down my cheeks uncontrollably. I even sat there for sometime and took kada prasad and came back home.

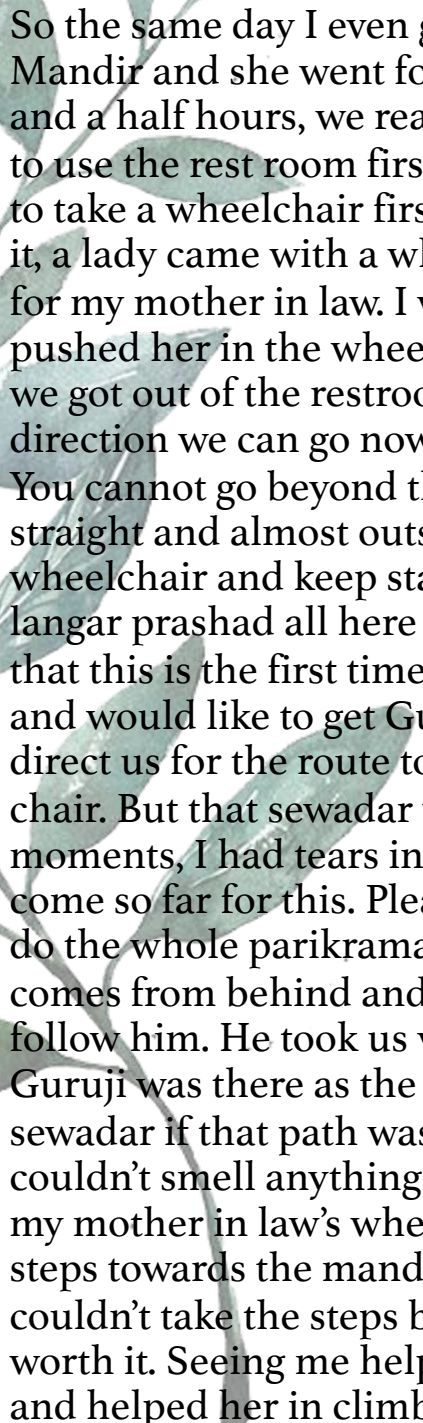

By the time I was back, my mom and dad were up and so were my sisters and their kids and were drinking morning tea. Everyone noticed I had a very unusual glow on my face and was radiating. All of a sudden I asked my dad that why did he come to my room last night and was resting his hand on my head when I had fever and was feeling unwell. He said, "I never came to your room and in fact slept the whole night." My dad is a very light sleeper and usually doesn't sleep well. I insisted why is he lying or joking with me but he kept saying that he never came to my room and had no clue what I was saying.

I asked my sister whom I had called for medicines and she said she did remember me asking for medicines as I was unwell. I was totally numb and then It dawned on me that it was none other than our pyare Guruji who gave me darshan and once I put the pieces together it made more sense as Guruji always says Ja Aish Kar. But truly I was so happy and had no words to express my gratitude to Guruji for His extreme Blessings upon each one of us. So thank you, thank you, thank you, guruji!

Another beautiful experience I had when I took my mother-in law to Bade Mandir for the first time. Actually, Guruji had very beautifully lined it up all for me. When we reached Delhi and I was with my in laws, I used to wonder if there was any satsangs nearby or Guruji where would I see you here in India as I was already missing Him. To my biggest surprise, our neighbors from across our floor invited us for Prabath Pheri the following morning(this has never happened in all these years of me visiting India) Since we were still in jet lag, I told our neighbors if we are still up we would love to go. Very surprisingly, my husband got ready as well as we both left for the Prabath Pheri and enjoyed the whole experience. When we came to the house which had arranged for the Bhandara, the moment I entered I saw guruji's big Swaroop right in the entrance. I was very overwhelmed and thanked Guruji for listening the smallest of the requests.

After langar prashad, the host came up to me asked If we were visiting from U.S. And I said Yes, then she asked me if we would like to go to Bade Mandir with her the same evening as it was a Thursday and sangatji, I was spell bound as I had no words but had teary eyes again(and thanking My pyare Guruji for everything He does for us).

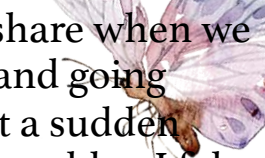

So the same day I even got my Mother in law ready to visit Bade Mandir and she went for the first time. After a long drive of two and a half hours, we reached there and my mother in law wanted to use the rest room first. As we got out of the car, we were asked to take a wheelchair first and as I was just about to enquire about it, a lady came with a wheelchair and asked me if I needed one for my mother in law. I was happy she was able to sit soon and I pushed her in the wheel chair towards the restroom. As soon as we got out of the restroom, I enquired a sewadar that which direction we can go now to do Guruji's darshan, he said, "Aunty, You cannot go beyond this and you just take 8-10 more steps straight and almost outside the langar hall, just park her wheelchair and keep standing here. You will get chai prashad and langar prashad all here itself." Although I kept explaining to him that this is the first time my mother in law is visiting Bade Mandir and would like to get Guruji's darshan, so please let us go and direct us for the route to be taken while I am pushing her wheel chair. But that sewadar was very adamant and strict. Within moments, I had tears in my eyes and told to Guruji that I haven't come so far for this. Please allow me to see you at least once and do the whole parikrama of the mandir. Unbelievably, a sewadar comes from behind and taps on my shoulder and asks me to follow him. He took us via the garden route and I almost felt as if Guruji was there as the path was very fragrant. I asked that sewadar if that path was always fragrant like that and he said he couldn't smell anything. We went a little further and he parked my mother in law's wheel chair and he urged us to take those steps towards the mandir. My mother in law was reluctant as she couldn't take the steps but I insisted that just try once and it is all worth it. Seeing me helping her, another sewadar approached us and helped her in climbing up the stairs.

As soon as we were on the last step, My mother in law was a little dizzy and seeing so many people, she became restless and wanted to go down back. I insisted that this is a very fast moving line in to the mandir hall and soon you will be inside. I was hoping if someone could let us in from the side but I saw that the sangat were packed on the other side and there was no chance of us going through that side.

The moment we stepped inside the hall and I very loudly said JAI GURUJI, a sewadar from left came and asked me to bring my mother in law from left side, he lifted the red belt for us and let us in and asked again to follow him. I was shocked as all the eyes were on us if we were special guests. I thanked my Guruji at every step as I knew it was no other than Him. And when we reached Guruji's Gaddi, I was shocked as someone asked me to do matha tek as I wanted to because I was holding my mother in law's hands all the time and was wondering how would I bow down and do matha tek. It's all Guruji who took care of us at every little step and made sure I had no wish left unfulfilled. Then from there we were made to follow a sewadar and he made sure he took us out of the lines and we did full darshans. I was already feeling very emotional and felt Guruji's presence at every step in the mandir. As soon as we came out of the Samadhi hall, a very tall and beautifully dressed lady approached me and asked me to open my hand and gave me a Swaroop of Guruji and asked me to close my fist and always keep it close to my heart and said "the way you have Him in your heart" and I couldn't stop crying and was very emotional. When we were about to ask someone about the wheelchair again, a sewadar approached me and said, "Aunty, You are very lucky! Nobody gets anything inside the mandir anymore."

And I was all in awe and gratitude to Our dear Guruji who took so much care and who loves me unconditionally.

Another beautiful satsang I would like to share when we visited Taj Mahal. As we all were walking and going down the steps inside the monument, I felt a sudden gush of energy from behind me and all of a sudden I felt I saw Guruji right in front of me. As I told my husband about the force because we were together, he said he didn't feel any such thing. But moments later, my daughter noticed and pointed out, "Mom, look!" There were three- four beautiful colorful butterflies that came from nowhere and were just hovering over me alone! All this time, I was feeling very happy and was just smiling.

When we reached our hotel back, I realized the Swaroop from my bracelet had fallen and I still didn't look worried. My husband commented, "Guruji is always with you. You need not worry!" and again I was very excited and happy and felt as if Guruji said those words himself.

I cannot thank my dear Guruji enough as he not only protects me but also constantly shows me ways to correct my behavior if I ever fall off the bandwagon and act inconsistently to His teachings.

As I write all my beautiful experiences with Guruji, He blesses me to relive those moments beautifully and I was fortunate enough to experience His fragrance once again. As I thought to myself and asked Guruji, "Are you here?" and I immediately see a heart on the floor. Absolutely no comparison to the emotions and feelings I went through at the time. Dher Saara Shukrana Guruji!

Very recently, I saw a post on Facebook and was looking for it as I could not complete reading it the first time. After frantically looking for it all over, I texted Sukhi aunty in the messenger to repost the same message about Guruji. I have never done this before as I don't know her personally but there was a strong desire in me to read it fully.

Within few minutes, I saw some aunty posted it in our local group and the same day itself, in one of the satsang sharing, a sangat from Toronto mentioned the same post and talked about it. How can it be a coincidence. It is simply our great Guruji.

Talking about coincidence, Recently I came to know my mom back home in India had fallen and had broken her Femur and due to COVID-19, it was getting very uncomfortable for my sisters and and my dad. And here I was feeling very helpless as I was talking to my sister in east coast and my brother in Europe, we all felt very helpless and restless. The same day in the zoom meeting , a sangat shared exactly the same scenario that she had a dream that back home, her grand mom had fallen on the floor and it was very uncomfortable for her dad and hospital and that she was sitting herein U.S. and couldn't travel. Guruji showed up in her dream and comforted her and asked her not to worry as He was there in the hospital during the whole surgery and she will be absolutely fine.

I was absolutely spellbound and was wondering what are the chances of something like this happening. That in the morning, I hear the news and go through the exact same emotions and same night hear all this in a satsang.

That was my Guruji telling me through a sangat that there is nothing to worry.

It's all taken care of as it is under His control.

Anantam shukrana Guruji!

You have made it so easy for us to just surrender and have complete faith in you but it is us human beings who make it complicated by judging ourselves or our circumstances sometimes.

So please a humble request, Guruji please do not leave us!
Always keep us under your wings and protect us!

- *Rajni Chawla*

Jai Guruji

It's been a beautiful journey with Guruji, I will not share how And when I got introduced because that's irrelevant what's relevant is the connect, he was undoubtedly a great Guru who showed us the way to connect with one another and ultimately with the divine in modern times which we as human tend to forget, every era has a guru that shows us the path to love, happiness and fulfillment. He's been a divine guru to us which is why we call him "Guruji", to me personally he's given me beautiful satsang moments which I have so much of gratitude for, whenever there was confusion or dull moments just being in his presence at satsang has brought a lot of clarity and peace which I feel is the sole purpose of Satsang. We all look for signs of his presence and want to experience magical moments in our lives to share at Satsang but just the fact that we are here in this perfect environment with all the comforts which we have taken so much for granted is something to appreciate. Where billions not millions of people have struggles beyond our imagination there are issues unheard of and here we are living a perfect life and then we create our problems because there aren't any (no water, sewage, electricity problems) we are living in a well protected bubble every single day and that itself calls for a celebration and once we realize how blessed we already are we wouldn't need any reassurance and signs of his presence. His love and blessings are constantly with us like sunlight each morning just we have to be open to receive them and acknowledge the fact that we are already abundant.

Once we start to count our blessings we realize we have nothing to ask for because he's already given us more than we deserve.

Everything is happening for a reason and a purpose everything from the sunrise to sunset is happening in an order, why do we think that our lives isn't in an order? each moment each experience is here to teach us something just have to be open to learn.

Guruji was a teacher, he would heal people physically so that we could connect with him spiritually so that we don't have any reason to not connect with a divine "sole purpose of our lives" Let's all of us share our learnings with Guruji.

Jai Guruji

- Honey

Jai GURU Ji Sangat ji

I would like to share how GURUji blessed me

On May 8th, I was feeling very exhausted and had strange pain in chest. I thought may be its indigestion but a thought came from my husband that I should check my blood pressure. I checked twice and the reading was dangerously high. I never had any high BP.

We decided to go to doctor. He did EKG and the results were not normal. They decided to send me to ER. Because of Covid only I was allowed inside

As we were praying to GURUJI and chanting His Holi name, my husband gets fragrance of Paan leaves in parking lot. That day, I was sent back without any medication .

Next morning, the BP was same and we were suggested by a sangat to talk to his cardiologist. Hearing my symptoms , the cardiologist said that all my symptoms indicate a blockage and I might be having a heart attack right now. He asked to come ER immediately. I was shocked.

We prayed to our God our GURUji Maharaj and left for hospital. As I entered ER, my eyes turned to a sign posted there which said *Safe Surrender *

Uss Samay, I felt that Jindagi GURUji ke haath Mein hei Aur *Mun se Surrender ho Gaya *

I just had one small GURUjis picture with me which they put on my gown and I started to listen to Shabads on my phone (amongst all the turmoil in ER)

Meanwhile all my tests showed that I have a blockage in my arteries and the cardiologist decided to do

angiogram and if needed angioplasty at the same time.

They started preparing my body for the procedure. One of the team members (he being an American) asked me
“*what am I listening to *

I said - it's blessed music. Can I please keep it on during my procedure?

He said - Who is the Singer?

I said - I have no Idea.

He took my phone and checked the singer. And suddenly I start hearing the music loudly as if I m in GURUJIS satsang. He searched the artist and put it on radio in the procedure room.

*GURUJI gives our answers thru Shabads *

Can u believe that the first shabad which came was *So Satguru Pyaara mere Naal hei *

I really *Calmed down* at that time realizing that our *magnanimous* *GURU Ji **is with me when there is nobody.

The cardiologist came in and said “*where is this music coming from *

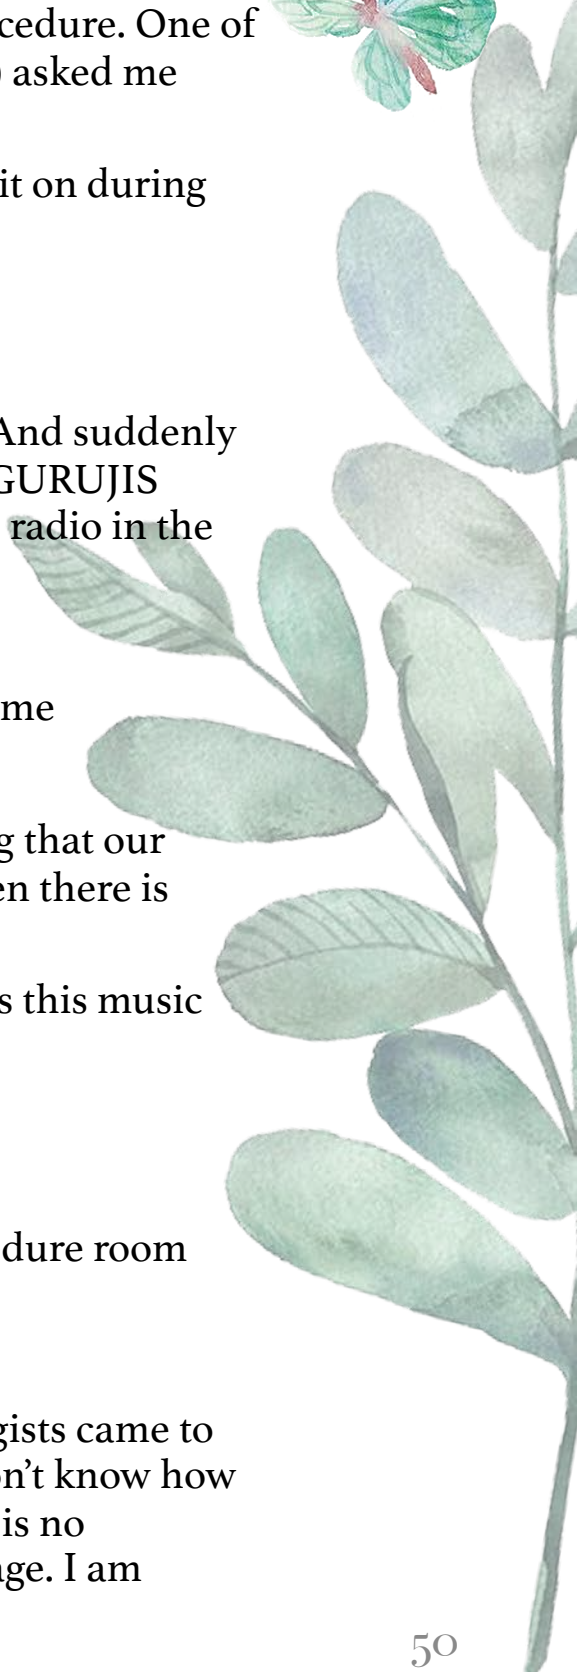

*He had never heard this happen before **

Second shabad was *Bin Dekhe Pritama *

Third shabad which came on radio in procedure room was

Jisnu Teri Nadar Naa lekha pucchiye

As soon as this shabad completed Cardiologists came to me with blood on his hands and said – “I don't know how it happened. You are a lucky women. There is no blockage. When u came in you had a blockage. I am hundred percent sure of that.”

Sangat ji, it's our *GURUJI's blessings*. He gave me another life because with that high BP anything could have happened to me.

I realized that on Thursday prior to that there was heart which appeared in daal with black pepper. There were hearts in onion I was cutting that day.

I humbly bow down to our Gurujis feet for all His divine protection , unconditional love and all His Blessings which are known and unknown to us.

I will attach all the pics for u all to have darshans

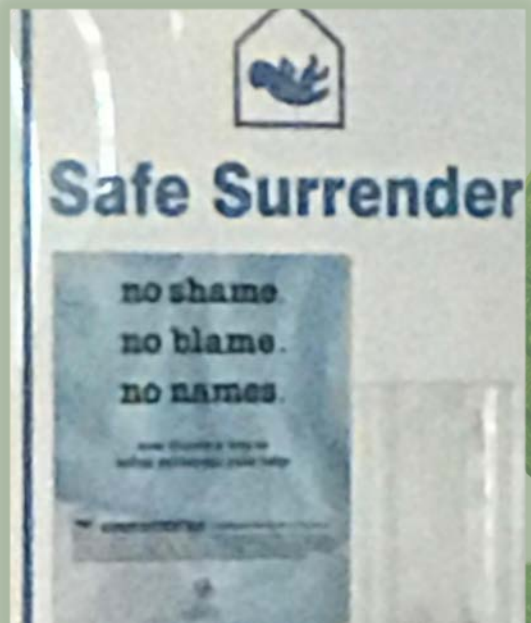

Shukrana GURUJI for giving me the strength to write this satsang

*It's not about me *

It's All Him only.

- Alka Gupta

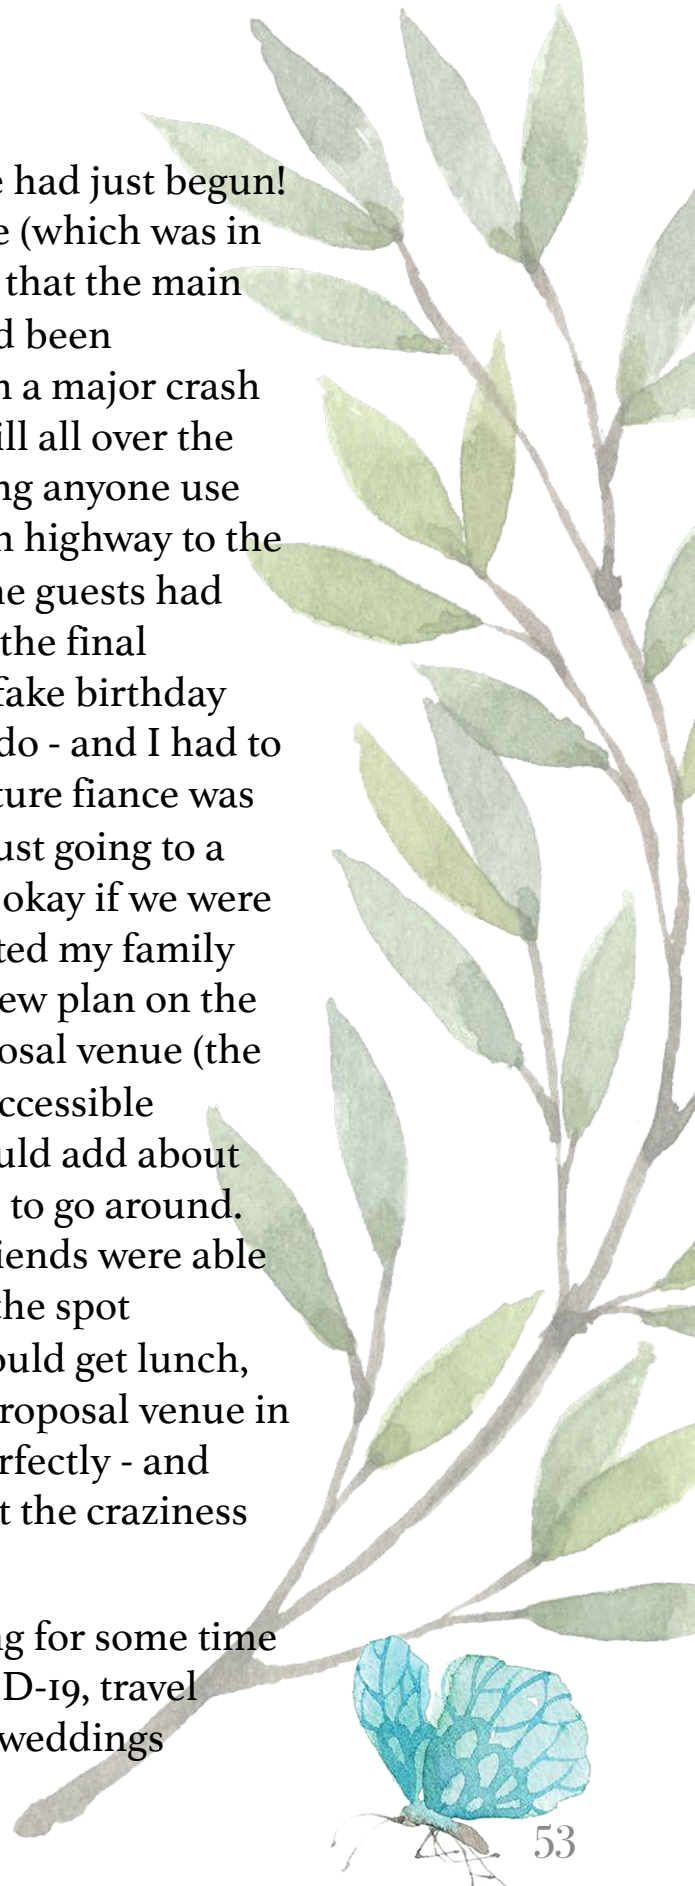

In late 2019, by Guruji's grace, I was planning on getting engaged to someone I had been dating for the past 3-4 years. I had begun planning the proposal nearly 2 months before the proposal date, and had coordinated among families, friends, and several vendors to ensure the proposal was a surprise and went off smoothly.

However, during the day of the proposal, there were some last minute hiccups that *almost* ruined the special day. The first hiccup was on our way to the proposal site. I had created a fake excuse for a birthday party for a friend, and we had gotten into the car to head to the proposal venue. However, only about a couple of minutes of driving, our car started beeping a loud warning. It turned out there was something wrong with the tire. I had driven this car somewhat regularly and had never had any issue, so you can imagine how stressful it was that we had some issue that occurred just as we were heading to the proposal venue. I called my dad, and he told me to go to a gas station to have the tire inspected. However, the first few gas stations we went to were closed or didn't know how to help. I then prayed to Guruji to help me as I had no other alternative or way of getting to the proposal, and had done a lot of work in planning and many people were flying from elsewhere for the proposal. Thanks to his grace, I was able to find a tire shop on the next block, and they were able to resolve the issue in under 5 minutes. It was actually a very minor issue and we were on our way - Jai Guru Ji!

Little did we know that our adventure had just begun! As we approached the proposal venue (which was in a somewhat rural area), we found out that the main highway to get to the proposal site had been unexpectedly shutoff. There had been a major crash of an oil truck, which caused oil to spill all over the highway and the police were not letting anyone use that highway. Again, this was the main highway to the start of our day's plans and some of the guests had already arrived at the first venue (not the final proposal site, but the first part of the fake birthday party). Again, I did not know what to do - and I had to pretend it was not a big deal as my future fiance was still in the car, and after all, we were just going to a friend's birthday party, so it would be okay if we were late or even missed it. I frantically texted my family and friends, and we came up with a new plan on the spot. Thanks to Guruji, the final proposal venue (the most important part of the day) was accessible through another rural road, but it would add about an hour to our driving time as we had to go around. With Guruji's grace, my family and friends were able to help re-plan the day's itinerary on the spot (including re-organizing where we would get lunch, supplies, etc.) and we made it to the proposal venue in time. The actual proposal went off perfectly - and now we have a great story to tell about the craziness of that morning! Jai Guru Ji!

Finally, we were planning our wedding for some time in 2020. As you all know, due to COVID-19, travel became nearly impossible and many weddings (including ours) were postponed.

However, thanks to Guruji's grace, his foresight and grace allowed us to get legally married in early 2020. At the time, we did not even think this may be our main wedding (for at least 1-1.5 years), but looking back now, we are so glad that it happened. This timing was critical for a few main reasons: 1) It allowed us to get legally married before the government courts closed down, which was critical for us to begin our immigration processes. 2) It allowed us to have proper mini-celebrations before everything shut down - we were able to take photos, have a dinner with family/friends, etc. which was really memorable and now we can share those with everyone. and 3) It gave our parents peace of mind that we are married instead of being in the middle phase of being engaged for many months/years. We did not know it at the time, but by allowing us to get legally married, Guruji helped save us from lots of future delays and anxiety - thank you Guruji!

- *Anonymous*

In mid 2019, with Guruji's grace, I made the decision to buy an investment property in another state. While the initial purchase went fine, almost immediately after buying the property, we faced a major issue. About a month after purchase, some new tenants had moved in. However, after a couple of days of living there, the property experienced some significant water damage. There had been a flood as the outgoing sewer line had backed up and damaged the floor, walls, etc. in multiple rooms of the property. When the technicians came to investigate, we found out that the whole sewer line was damaged, and that it would cost tens of thousands of dollars to fix. In the meantime, the tenants who were living there would not be able to use basic plumbing (e.g., water for showering, toilets, etc.). On top of it, we could not begin fixing anything until the insurance company could come and investigate, and see if they would cover the repair costs, but this process could take weeks. I was really in a bind - I did not know what to do or how to fix it, and I was feeling especially bad for the tenants who did not have access to these amenities due to an issue with the property. I prayed hard to Guruji to help us resolve this issue and ensure that everything could get back on track.

Thanks to Guruji's grace, the following happened: 1) We had initially been assigned an insurance investigator who was not cooperative and was not helping us at all. After praying to Guruji, we were re-assigned a new investigator who was extremely helpful and cooperative and agreed that nothing had been our fault. He expediently conducted his investigation and approved the cost of the repairs which was near \$20,000. Jai Guruji! 2) Guruji also helped us as he had given us tenants who were understanding and reasonable, and cooperated while the repairs occurred. 3) Guruji helped us find the right technicians who knew how to repair the items and could fix it to operating condition quickly 4) Guruji taught us an important lesson about what things to check in the future

Thank you Guruji - we made the wrong decision and you helped save us from a major calamity.

March 13, 2020

With lockdown, it's been challenging to keep dad at home. All we do is watch TV for the moment and count our blessings. That night, I had a dream my dad and I are watching TV and all channels are showing Gurujis Darbar with beautiful darshans of Guruji in different cholas .. with same message on each screen - 'zoom kar dekho!' I did not under the message until next week on March 19, California is in lockdown and all my meetings are on Zoom. I wished Guruji's satsangs were also on zoom as I really enjoyed visiting sangat's home. Shukarana to Guruji March 26 onwards, we have been able to attend satsangs from all over the globe via Zoom!

- Ena Gupta

June 28, 2020

Jai Guruji

Shukarana Guruji

June 28 is a very special date in my life . Back in 2014, my friend invited me for Gurujis Satsang on this day. All I knew was to listen to Shabads and finish all the langar as per instructions.

First Shabad of that evening was Lakh Kushiya path Shaiya je Satguru nadar kare .. tears rolled down my eyes listening as I heard it long time ago when I visited grandma in Punjab. After Satsang I asked when is Guruji going to come? She shows me Guruji's swaroop on the wall and chair.

I was so mesmerized by the swaroop not believing it could be a Guru since my vision was an old Gentleman with a beard.

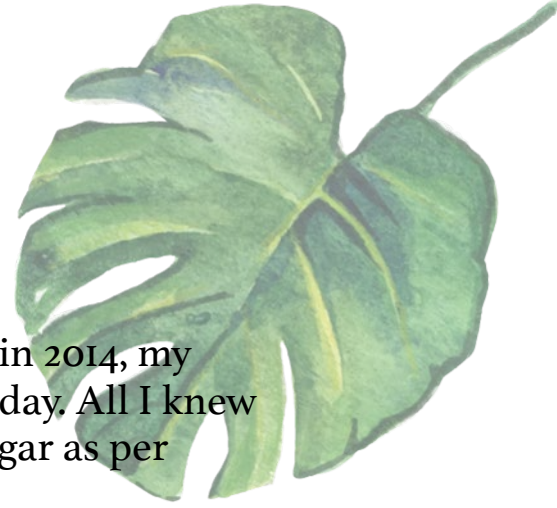

We sat in the Darbar until 2am and I asked Guruji's charan at the bottom have no lines .. someone once told me people with no lines on soles can walk on air and create miracles... her answer exactly Guruji is a mahapursh and can walk on air and perform miracles :) With Guruji all you need is Faith and give unconditional love!

With my career on the line and health with a rare diagnosis that night, I just asked Guruji my life is in your hands.

From that date onwards started my journey with Guruji with amazing Darshans, dreams, Satsangs, and miracles :)

No words can express my gratitude for Guruji, His charisma is beyond expectations... always Shukarana for everything HE has bestowed upon me in spite against all odds.. only Guruji can change the course of destiny.

From then on each moment and each day became a Satsang.

At the beginning of the year, I whispered to Guruji June 28th is our anniversary.. hope it's special.

But lockdown changed everything. Not been able to attend Satsangs, I joined Facebook in March. Last night I was feeling sad. Guruji it's 28th we need to celebrate ..but I have no Satsangs to attend :(

All night I couldn't sleep .. so finally at 4 am, I opened FB to attend Amrit Vella ... but instead I see Live Satsang in Guru ki sewa ..Divine Blessings .., Reading of Shiv Puran and live Satsang on Supreme power. Four hours of beautiful Satsangs with mesmerizing shabads on guitar...what more I could ask for .. blissful morning with our Pyare Guruji

Mid afternoon I asked Guruji we need to go out n celebrate but there are restrictions everywhere...

Suddenly some folks made a plan to see the beach of course maintaining social distance ..

I drive to the crowded beach asking Guruji pls.,find me a spot away from crowds and sure enough parking is great with perfect view of the beach ...

Though a bit cloudy, the sun did come out for few minutes and shined upon us .. beautiful day to remember with my Guruji as He always creates the best for us...Shukarana Guruji!

August 10,2014

Two Days before my daughters 18th birthday, my doctors handed me a rare diagnosis that turned my life upside down .. with career on hold from that day on and my daughter leaving for college I had no hope.

On August 10th my daughters 18th birthday I had to celebrate.. we went for Satsang at Alka Aunty's house first time after just getting connected with Guruji on June 28th.

I told my daughter - please lets go for Satsang have chai and Langar prasad and you will know about Guruji. When you go to college I will be at Satsangs

She just nodded and came along with me not knowing what to expect.

Sitting in the Darbar mesmerized by Guruji Swaroop, my heart was sinking not knowing what my future holds for me. I asked Gurujis mercy and help me to be strong for my daughter.

As soon as we were leaving, uncle Ji calls out Sangat Ji and said that we are celebrating August birthdays, please come and cut the cake .. my daughter went up to the Darbar in awe wondering how would they know.

Today I went July 6 and celebrated Gurujis birthday with uncle and aunty Ji six years later with live bhajans streaming from Bade Mandir.

Shukarana to Guruji for all His Blessings and Grace and hope to celebrate with Guruji for many more years.. Shukarana Guruji!

April 14,2019

Shukarana to Guruji for a wonderful trip to India after 30yrs.

Last year, my cousin arranged her sons wedding in Chandigarh. I wanted to go but my family thought I was crazy about traveling due to my medical condition . I insisted on going and visiting Bade Mandir.. I was totally determined Guruji will take care of me.

Though I had many issues getting an Indian visa. I landed in New Delhi on April 14. Arranged a driver and first thing visited Taj Mahal and on the way asked him to stop at Gurujis mandir in Agra. We were so lost but still did not give hope. Finally we stopped at a shop but suddenly a white car comes in front of us with sticker Gurujis Blessings.

I jumped out of the car and asked the aunty - do u know Gurujis mandir? She replied – yes, we are going there right now. We followed and reached Agra mandir and had chai prasad with Bhatia aunty .. even though Mandir was closed she allowed us beautiful Darshans of Guruji .. Shukarana Guruji!

Next day, I asked the driver to take us Bade Mandir on Monday Morning. My cousins and bridal party were leaving for Chandigarh same day. They insisted I visit Guruji on way back but knowing my love for Guruji decided otherwise. I asked my driver to take me Bade mandir for Darshan .. on the way we got lost .. all I could tell him follow any car with Gurujis Blessings and sure enough we reached Bade Mandir. Most beautiful divine experience of Guruji with such organized directions of sewadars, I could not imagine for in my life. Gurujis blessings, I had darshans of Bade Mandir in my dream and now it was a real one! Even I was advised drinking water in India.

That day, I was handed 3 cups of jal prasad .. it sure was like Amrit and had chai prasad with Samosa. My seven days in India were heavenly all Shukarana to Guruji !

My humble gratitude to Guruji and apologies for any mistakes.

- *Ena Gupta*

March 7, 2020

Shukarana Guruji

Every moment is a Satsang with Guruji, Have FAITH in Guruji and HE makes it HAPPEN without a doubt.

I have had many Satsangs dreams and unreal experience with Guruji I cannot explain in Words... but that is my SOLO Journey with Guruji.

Only last weekend March 7, 2020 as they say is a very lucky no. it's Gurujis number. It was a miraculous day as there were so many postings of Gurujis Divine Honey Darshans beyond belief at Sangat's home in Las Vegas.

I was busy at home tied up with family, yet made Kada Prasad if only possible by Guruji, I will be able to go and see this Divine phenomenon.

Sure enough, I get a call on Sunday night from one of the Aunty to go tomorrow, Monday after 12 when she gets off work and back by Tuesday morning. All plans were set. I packed my car and headed to her home Monday at noon!

Instantly I get a message from her that she can't go because of crisis at work.

I had a crisis myself go or not to Go... that was the question.

As I am on my way, a street car with license plate comes as God Bless. A surge of energy comes over me and I drive solo to Las Vegas.

I reached Las Vegas by 4:50 pm. I called the host as she was expecting the other aunty.

Host Aunty said Darbar is no longer there but please join for Satsang at 5pm. I reached her place and everyone was upstairs at the temple. I said Aunty all I came to do Darshan of Gurujis Charan.

She said that the honey wale charan are gone but has requested another aunty to bring Charan.

In my bag of gifts, I took her one tea light and a pink box with Gurujis Charan.

Gurujis Grace as in a moment after the charan were placed in her Darbar, there was Amrit Varsha everywhere from swaroops, Shivji chola, cushions and even wet footprints on the blanket on floor.

Entire room was filled with smell of Chandan. I cried with excitement of Gurujis presence and all the love that surrounded me and yes we drank amrit from Gurujis Darshans.

We even placed our little swaroops from our wallets and that too had Amrit Varsha. So are the Miracles of Guruji!

Next morning, I had taken leave and started driving back to Orange County. With downpour and visibility zero, I had to drive through the mountains in heavy fog. All I kept praying to Guruji to please stay with me. With continuous Mantra jaap and shabads, Guruji brought me home safely. All Shukarana to Guruji for all HIS Blessings.

- *Ena Gupta*

My family attended Guruji Maharaj Birthday satsang in 2019. I took a few pictures and to my surprise when I looked at the pictures again at home, I saw Guruji Maharaj divine darshan on one of the pics which I clicked close to my 6 year daughter. Till last year, my daughter's growth was quite stagnant and had lot of issues with food, stomach aches and digestion. The very same week Guruji Maharaj came in my daughter's dream and invited our family to his birthday feast in mountains. We all had delicious food there as my daughter narrated and Guruji blessed us all. Within 2 weeks, she got diagnosed with Celiac disease and the root cause of all her ailments came to light . Bahut Bahut Shukrana Guruji..After a year of restricted diet her intestine lining has healed completely with no symptoms of pain and discomfort. Lakh Lakh Shukrana Guruji. With your divine grace she is happy and growing well.

This year 2020 Guruji Maharaj came in her dreams on her birthday again and blessed her lovingly. She narrated that she saw a yellow and red peacock with Guruji Maharaj who ate langar prashad too in our house satsang. Guruji Maharaj also gave some pink sparkles to my daughter and advised her to use them, if someone is sad in the house as a birthday gift. Then Guruji Maharaj danced with her on her birthday. She was really happy and excited while narrating this dream.

As a mother , I can't thank enough to Guruji Maharaj for blessing my daughter's health. I have wholeheartedly surrendered my daughter to Guruji Maharaj . Thank you so much for taking her in your sharan now and forever.

JAI GURUJI

Blessings Always GURUJI

-Shikha Kaara

Jai Guruji

Shukrana Guruji

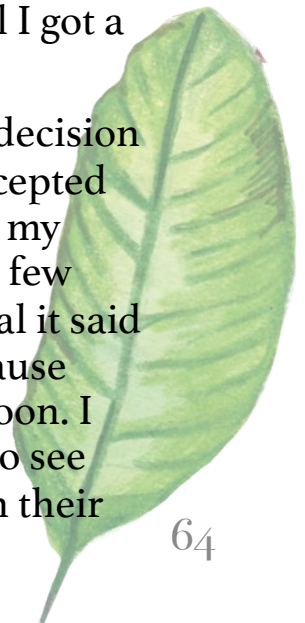

Guruji ki pyari sangat ko pranam

Satsung of April, 2018

My Mom got connected to Guruji in April 2014. After seeing her faith, I got connected as well.

Last year, my senior year of high school, I had been applying to colleges in the fall. The application process is obviously difficult and time consuming, but harder than that is waiting for the results of those colleges. The results of the admissions for each college usually start getting released in the month of March and April, but until then all you could do is wait. After waiting four months, I started getting back acceptances and rejections from the colleges I had applied to, but I was still waiting to hear back from the school I really wanted to go to, Cal Poly Pomona. It is a polytechnic university, so it's a great school for engineering and I had applied for the computer engineering major there as well and so it was one of my top choices. I had heard back from most of my other colleges, but not this one yet so I kept checking the portal to see if there were any updates and on Thursday, April 19th, I saw that under admission it said "Waitlisted". In that moment, I felt a mix of emotions. I was not rejected from the school, but neither was I accepted and more than that, after already waiting four months I had to wait some more until I got a definite answer.

When you get waitlisted, they typically release their final decision towards the middle of May, after students have already accepted their admissions to a school on May 1st, but I still checked my email every day after I got waitlisted for an update. Only a few days later, on April 23rd, when I decided to check the portal it said denied under admission. I was shocked but confused because they do not release the decision after being waitlisted so soon. I talked to my mom and we called the office of admissions to see what was going on and their office said that I was never on their waitlist.

Hearing back from colleges to find out where you got accepted and rejected is a stressful process, being judged by a GPA or SAT number and working hard for our entire lives for that one decision of a college. So, after I had found out that I was not even on the waitlist and having them double and triple check their records, I was left confused as to why on the portal it had said "Waitlisted". The admissions office representative said that they had sent out emails of their decisions 15 days ago, but I told them that I never received an email and explained what had happened. When we talked to the supervisor, they said to us that we could write a letter of appeal to the office of admissions and hope that they might change their decision and they would get back to us in two weeks with a final decision. Luckily, we had found out about this just before the deadline of the letters, so we wrote it explaining what had happened and how much even that word "Waitlisted" meant for me and drove up to the school and submitted it. Later, I had checked my email again and went through all the subcategories and found the email the school had sent to me in my junk mail, even though every other college decision that I received went to my inbox.

This whole process was extremely stressful, but Guruji was there with me and watching over me the entire time. That is why I saw myself waitlisted for just that one day and Guruji did not let me see the email in which I was declined, and only because of that I had appealed to have another look on my application and just a few weeks later, by His grace, I received an email offering me an admission to Cal Poly Pomona. I believe that this entire process portrays it so well that Guruji has his own ways to take care of his Sangat and we just need to be patient and say Shukrana for His Grace. We do not realize it, but everything that happens or happened in our life was by His grace and I am so thankful for everything.

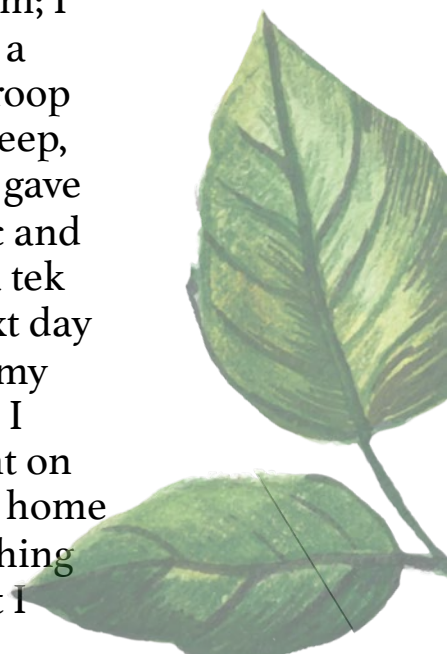

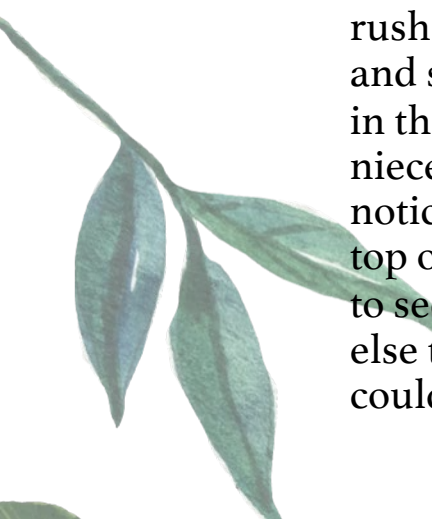

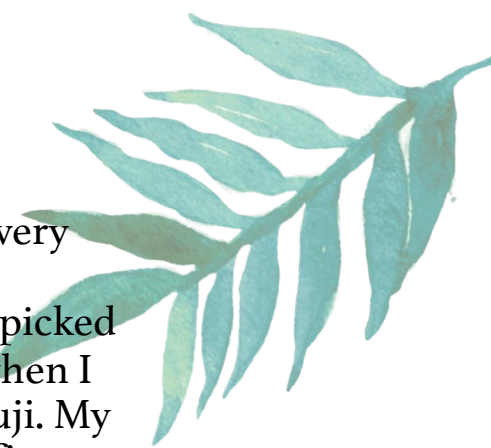

Jai Guruji.

- Rini Jain

Jai Guruji,

I want to start with wishing you a very happy birthday and shukrana for accepting me as part of your handpicked sangat. I want to share a satsang when I had a dream darshan of dear Guruji. My family was going to host our very first satsang in our home and naturally, I was very excited. I wanted to do the best for Guruji, but I also kept getting messages to keep the satsang simple. So I was always thinking of different options for the decorations, prasad, and shabad list. My niece and her family had told me numerous times in the past that she wanted join us when when we have our first satsang at our home. And eventually, it happened. The day my niece and her family were going to arrive from Canada, I had a dream darshan where Guruji told me - "Le main aa gaya han." It was approximately between 3 am and 4 am; I distinctly remember he was wearing a silky grey chola as shown in the swaroop below. I woke up and went back to sleep, but again I got a thought that Guruji gave me darshan and I woke up in a panic and rushed to my puja room. I did matha tek and started my day as usual. The next day in the afternoon, I was going to take my niece and her family for lunch when I noticed about 5 or 7 crows flying right on top of my home. I looked around my home to see if there was any food or something else that attracted their attention, yet I could not see anything.

I went back to look on top of my home and the crows were gone. I told my niece about the crows and she said that it was an indication that dear Guruji was here. We ended up having a blessed satsang, and I felt really happy as we felt dear Guruji's presence and positive energy.

Now that we are staying home because of COVID-19, we have the opportunity to listen to so many satsangs. It is amazing to hear the divine experiences, most of which we might not have had a chance to hear in this life. So everything happens with dear Guruji's grace, and positivity comes out of it. Thank you so much, dear Guruji.

Please keep me and my family under your blessings always and hold our hands always guiding us.

With lots of love and hugs,
