Who Is the Real Guru?

Real Guru is the "one who dispels darkness of Ignorance."

Real Guru is the "one who is beyond attributes and forms."

Real Guru is the "one who is not attached."

Real Guru is the "one who helps you find your own way."

Real Guru is the "one who sharpens your mind and open your mind."

Real Guru is the "one who shows you the way to prosperity and serenity."

Real Guru is the "one who reaches your mind and touches your soul."

Real Guru is the "one who gives you knowledge and makes you wise."

Real Guru is the "one who helps you find your true soul."

WRITING A BOOK

Writing a book is an arduous task, I have never imagined that I would ever be able to write it. Guruji inspired me for sharing this spiritual journey with Guruji's sangatji. It is absolutely inconceivable to write about the glories of the Guru, even words fell shorter for explaining who our "GURUJI IS". He is the ultimate lord of this planet. He is Shiva, he is Guru Nanak. People who might be reading first time about Guruji may not believe yet, but once you get connected with him you come to know yourself. When I start writing this book, I was having no idea what I will be going to write in this book. I am merely an average person who didn't have enough knowledge of choosing the right words for our loving Guruji. I wrote what Guruji wants me to write. I humbly request sangat Ji, please forgive me if I lack somewhere in writing. What I have written is purely by heart and it expresses my genuine feelings which I reserve for Guruji. I am not a knower of everything, what I have written is just a little effort which may help sangatji to connect with Guruji. I wanted to serve the book

sewa, but I never thought Guruji will bless me so soon. This book is not about me or what I get,... it's all about Guruji and what he gave. This book purely shows how Guruji connected us with him, what role he plays in our life, how he blessed our whole family and how he shapes our life with his blessings. Guruji's blessings are our real possessions, they are simply priceless. Guruji gave me what I needed not what I asked for, because he is the ultimate power who knows what is important in our life.

Guruji please, always bless me with your connection.
Guruji please, always bless me that I bow my head in front of you.
Guruji please, always bless me with your Sewa and Simran.
Guruji please, always bless me with your divine darshan.
Guruji please, always bless me with your countless blessings.
Guruji please, always bless me with your Saachi Bhakti.

Before writing this book, Guruji was flashing one thought again and again in my mind. Guruji wanted me to pen down all the blessings he gave me, so that the sangat Ji who read this book will also get blessed by GURUJI.

GURUJI IN OUR LIFE

Throughout our life we came in touch with many people like parents, teachers, friends, family, neighbours, strangers, etc. We learn many things from different people, but the importance of guru in everyone's life is necessary. When you discover a true guru, your life becomes complete. In Guruji's protection, one doesn't require rituals or all- encompassing religious exercises. You just need the most effectual course for unification with the god. Your consciousness up rises by the honest surrender and then Guruji infuses true devotion in your heart which leads you to the spirituality. If you trust Guruji surely nothing wrong will happen, only good things will happen for you. Nothing can harm you, even if someone intended to do worse

or harm you then Guruji turned them into his blessings. If you go through any hardships, he will replace them with the things which helps you in the long run. He will replace them with something beneficial to you. Guruji is just a beginning. Guruji motivated us to move ahead no matter what. Guruji says, push yourself because no one is going to do it for you. Guruji shows us the right direction. Guruji teaches us the importance of human life in a true sense. Guruji says, render your all sufferings to me and be free. Guruji makes you gold out of garbage. When your life is full, you stimulate a feeling of gratitude, you start and end up adoring blessings of Guruji. Whenever you praise, the praise goes to the divine. When you praise someone, your own consciousness is spreading out. So, for your own sake, adore and venerate others. You ascertain a definite change inside you. Gratitude and humility together blossom a genuine prayer inside you. The guru - disciple relationship is based on unconditional divine love and wisdom. It is the most sacred and beautiful relationship. One who partakes of this relationship is on the way to spirituality, pure love and right path of humanity.

CONNECTION WITH GURUJI

The first question which comes in everyone's mind is, how to connect? For the connection you only required to surrender yourself. The connection becomes easier when you follow their path, surrender him completely without ifs and buts and connection becomes difficult if you use your over intelligence or if you walk on the path where everything is materialistic. So, what to do? Do we require to leave everything, our family, job, money, relationship and become ascetic? The answer is no. For connecting with Guruji, you only need to purify your soul by leaving anger, ego, pride, greed, abusing, blaming, cursing and negativity. When you empty your soul vessel with such things your real journey starts with Guruji. That journey will become the best journey for you. From there, Guruji starts the process of refining your true soul. Guruji always used to

say, “listen to Shabads, Gurbaani and Bhajans it purifies your soul”. The meaning lies in all makes you aware of what knowledge you require. Guruji says, don't read the spiritual books and Granth for the sake of reading it, understand their meaning and imply in your actions and behaviour. Then only you get connected with him. We are not the one who chooses Guruji, he chooses us. It is because of his will and blessings we get connected to him. It is our fortune that he chooses us as his sangat. He is the real Guru and God himself.

**Yeh Tan Vish Ki Belree,
Guru Amrit Ki Khaan,
Shish Kaate Aur Guru Mile,
Ton Bhai Sastaa Jaan||.**

Kabir has said: - Our body is like a plant of poison and Guru is like a mine of nectar. Even if the life is sacrificed to reach the Guru, the deal comes at a cheap price. Because, once you reach the true Guru and submit yourself to him, the course that our soul will now take, will be defined by our Guru.

**Guru Kumhar Shishya Kumbh Hai,
Garhee Garhee Kade Khot,
Andaar Hath Sahaar De,
Baahar Bahe Chot ||.**

Kabir has said: - Guru is like a potter and we are like the clay mounted on his wheel. Just as the potter hits the clay on the outside and digs the extra clay and impurities to give it shape from the inside, Guru may be harsh on his children from the outside, but from inside, he loves them and makes them pure.

|| OM NAMAH SHIVAY SHIVJI SADA SAHAY ||

|| OM NAMAH SHIVAY GURUJI SADA SAHAY ||

**!! Os De Dar Vich Sukoon Milda E
Os Di Ibadat Vich Noor Milda E
Jo Jhukh Gyaa
Guruji De Charna Vich
Osnu Sab Kuch Zarur Milda E!!**

SATSANG

As we all know, the meaning of "Satsang" is to be in the company of people who are true devotees of the god. One can get the benefit of divine consciousness being in Satsang. We can ameliorate the quality of Satva and suppress Rajas and Tamas. Due to Rajasik and tamisik elements around us, it has become difficult today to even think of some god and spiritual practice. Satsang gives us the motivation to preserve on this path, as we get inspired by someone else's faith. Sangat get positivity from Satsangs, shabads, bhajan and Simran. However, the amount of positivity received by each sangat is directly proportional to the seeker's spiritual level, their spiritual emotions for Guruji and lack of ego. In Guruji's Darbaar Satsang plays a pivotal role in the spiritual journey of devotees. The satsangs we heard, read or experience are the divine blessings of Guruji. Sangat can get the Guruji's blessings in the form of rose fragrance, it can be in the form of OM (Guruji's divine symbol), it can be in the form of God's Darshan, it can be in the form of relief from diseases and in many other ways. Guruji's blessings are endless and sangat experience them as Guruji blessed them. When sangat get relief from sorrows or problems, they share their experience which is called satsangs. Guruji used to say, share your satsangs with sangat as much as you can so that the whole sangat get blessed by listening them or reading them. He also said, the satsangs are not related to the one person only, other people can also get blessings from it which I hold for

them. Thus, sangatji share your blessings so that the whole Guru Parivar get blessed. With the grace of Guruji, I am also sharing my satsang blessings with you all sangatji.

HOW MY SEARCH FOR TRUE GURU ENDS

From childhood, I saw my mother worshiping god, she kept all idols Radha Krishna, Shivji, Mata Rani, Ram Darbaar, Ganeshji, Lakshmi Ji, and Saraswati ji in her small temple at home. On every Monday, she visits a Shiv temple and offer her prayers. In my family, everyone worships Shiva..... my parents, brothers, cousins, uncles and aunts. From there, I began special fondness for Shivji. I always get fascinated by his unique appearance and his family life. My mother always says one should ask for a family life from bhagwaan Shankar as Shiva teaches us our responsibilities with pure bhakti. To know more about God Shiva, one should read SHIVPURAN. Day by day, I get more devoted to him. There was also a small Gurudwara near to my home and I began going there too. This is how my childhood passed by idolising lord Shiva and Guru Nanak. Later on, my mother becomes a follower of one Guru, she makes me understand the importance of having a Guru in our lifetimes. I decided to have a guru too, but she refuses me for having a guru at that moment. She said you should become devotee only after getting married, as it will become difficult for you to follow guru's guidelines and specifically if your husband's family is devoted to some other guru. I agreed with my mother and waited for the right time. Long time passed away and one fine day, Guruji entered in my life. I had never imagined that I will get the guru who is lord Shiva himself. Guruji has shown me his Swaroop changing into different forms of God which was first unbelievable for me because Guruji is not present in his physical form but still he is giving and showing unimaginable darshan, still people are getting cured from the major diseases and sangat is also getting his blessings in various ways. Only God has such powers that without being in the physical form he can bless you. Guruji accepted

me with his open arms, he welcomed me in his divine shelter. I got both, Guru as well as God. There I found, you do not necessitate to follow any rituals, you do not require to maintain any custom. Guruji only wants love, accept him with pure emotions and he becomes yours for ever and ever. Guruji only wants true Bhakti - total surrender which means leaving five vices forever and trust Guruji completely.

GURUJI'S CALL, "BEFORE EVEN KNOWING HIM"

Near to the end of the year 2011, Guruji gave me his first call which I didn't understand at that time. I was not into Guruji's Sharan and even I have never heard his name or any presence before. At that point of time, I was going through tough time where I was feeling depressed with my troubles. Later on, one day I went to the kitchen for making chapatis. Surprisingly I found a big 'OM' on my Chapati. It was something which happened with me for a first time, I had never experienced anything like this before. I was completely stunned and take it as a positive signal. I show the Chapati to my whole family and gave it to a cow next day for eating. That time, I didn't know that 'OM' is Guruji's sacred blessings which he often gave to the sangat. Later on, when I started going to Guruji's Mandir I got to know about such blessings. That was my first call from him.

OUR JOURNEY TO HEAVEN (BADE MANDIR)

Our journey to heaven begins in March 2012. My sister-in-law introduced us about Guruji, she shares her satsangs and glories about Guruji. How Guruji blessed everyone with his blessings and how he can show you the miracles. By hearing so much about Guruji, we (my husband and I) thought of meeting him at Bade Mandir. On one blessed Monday evening, we travel to Guruji's Mandir. While reaching Mandir we found that the route was too elongated, and it was taking hours to reach. We were thinking on the way that we

wouldn't come here again, but as in Guruji's Mandir everyone can visit by Guruji's will only. When we reached Mandir, we found the place beautiful with Ganeshji, Guru Nanak Ji and Shivji idol. When I saw Guruji's Swaroop for the first time, I just pay my regards, but I didn't understand who he was really. I feel positive vibes there. We had our chai Prasad, samosa Prasad and laddoo Prasad. After having prasad we came back to the main entrance. Suddenly one Sevadar uncle gave me a Swaroop of Guruji, but I returned him back by thinking that I may not going to visit here again and even I am not ready yet to have him (Guruji) in my life. (My apologies Guruji, I didn't understand you at that time and judged you). We sat in our car and when we were about to go, my sister-in-law saw that I didn't get Guruji's Swaroop she gave her Swaroop to me. I got so anxious that what I'm going to answer my family, where would I kept this Swaroop. After a while, when we reached home, we explained everyone about our experience of visiting Guruji's Mandir and by hearing all my mother-in-law said that next time we all visit there. I got so surprised as I thought I may not come here again, only it was Guruji's will and he makes the connections. From there our forever journey to Guruji's Mandir begins.

FRAGRANCE OF GURUJI

When we statrted going to Guruji's Darbaar, we heard from sangat people that Guruji had a fragrance of fresh roses. One who sits near to Guruji (when he was in physical form) often feels the fragrance. Even after his mahasmadhi, sangat has experienced the divine rose fragrance which shows the presence of Guruji. One day, I was at 'Bade Mandir' with my mother- in- law and my husband, three of us feels the rose fragrance for the first time in the Mandir. We experienced the fragrance at different places, it was quite strange for us. My mother-in-law feels the fragrance near Guruji's hut, my husband feels while taking Prasad and I felt too while eating Prasad. On that day, we got to know that Guruji shows his presence in this way.

SHIVJI JI FEATURE KEEPS ON CHANGING

In 2012, on the first day of saavan month we visited Guruji's Mandir. It was beautifully decorated, and the atmosphere reverberated with shabads and Bhajans. We sat in the hall, had our prasad and when we were about to leave, we came to 'Shiva idol' (one with sheshnaag on the head) for offering our prayers. We got amazed to see that Shivji eyeballs were changed from black to the hazel brown color and it was scintillating very brightly. We have seen this figurine earlier also but never with such an amazing feature and dazzling smile. My husband took few pictures of Shivji Ji and we stick there for a couple of moments for his delightful Darshan. We were really astounded to feel that being in human form, we get so blessed to have Darshan of Shivji Ji. Next day, we came again at bade Mandir, but this time the vision was usual as before it used to be.

GURUJI'S SWAROOP DARSHAN

One day my sister-in-law was telling me about the miracles of Guruji. She told me that Guruji changes his form and can appear anywhere. She further averred, in one of his miracles he showed one aunty his form as a god. Shamelessly, I didn't trust her and thought how it can be possible? Perhaps, Guruji proves me wrong and clear the illusion of my materialistic approach. From a long time, I am having a 3D postcard of 3"*4" inches in our bedroom. It has images of Ram Darbaar, Shiv Parivar, Ganeshji, Lakshmi Ji, and Saraswati ji. One day I was playing with my son in our room, suddenly I saw an orange bright light coming from that picture. I ignore it for once, but again that light grabbed my attention. I went near and shattered to see Guruji's face in that 3D photo. I was not believing what I saw then I call my husband and asked him if he could also see what I have seen. My husband too confirmed that Guruji face is so clear in this Swaroop, I have this Swaroop from many years and it has no as such image before. Our whole family saw this miracle, I still have this

postcard, and anyone can see Guruji's image in it. Guruji not only proved me wrong, he likewise showed me that he is "God" and can do anything.

GURUJI BLESSED MY FATHER-IN-LAW

My father-in-law was a heart patient for a long time. One day he saw a dark red blood clot near his right ankle, he thought this was general mark and can get removed. He took a bath and scratched his marks, but it didn't get removed. My husband told him to visit bade Mandir and take blessings of Guruji. He went to the mandir same day and had his Prasad. When he came back, he forgets that he had any mark. Later on, when he got to remember, he checked his ankle it was all clear and had no spots or clots. Till date he didn't get any clotting again. He regularly visits Guruji's mandir and take Jal Prasad from abhimantrit vessel. Shukrana Guruji for blessing him always with good health.

AMRIT BARKHA

One day we were going to Guruji's Mandir and on the way we were listening to the shabads. After a while came a beautiful Shabad, "Amrit Barkha, Amrit Barkha Saach Naam Ki Amrit Barkha". My son who was then only four and a half years old asked me, mumma what is 'Amrit Barkha' I explained him the meaning, it's a God's nectar rain which is very sweet. Suddenly he says, 'I want Amrit Varsha' he kept on saying this again and again. I was trying to make him understand that it is not possible, but my brother-in-law said, it's okay Bhabhi we will shower some water drops on him and make him believe this is 'Amrit Varsha'. We told him; ok you will get it when you will arrive at home. Though, Guruji has his own ways, when we reached bade Mandir and parked our car, the place started raining. We were really astonished, as there was no as such weather near around for the rain. My son felt so happy and starts saying this is Amrit Varsha and

Guruji had given me. He starts tasting the rain drops, our eyes filled with the tears of gratitude, seeing how Guruji listens to each and everyone, even a little child's demand. Till the time we were in the Mandir there was rain and when we came out of the Mandir there was no rain anywhere, all the roads were dry. Thank You Guruji for this sweet blessing.

MY PARENTAL FAMILY BECOMES GURUJI'S DEVOTEE

From a long time, my younger brother was having a back problem. He wasn't even able to bend down or sit on the floor. One day he was suffering from severe back pain, he showed to many doctors and they said he got the problem of osteoporosis. I told my brother about Guruji, how he can cure your problem and how he can do the miracles. I told him to visit once, he agreed and one fine day he came to our house and we decided to visit bade mandir. While on the way, we got saved from a major road accident. It was one-way road; a huge truck was coming from one side and opposite side a car was running with high speed. We were exactly behind that car and as the car was running with high speed it got unbalanced. They both clashed and our car reaches near the road corner on two wheels, we barely got saved. After watching this incident, my brother said, because of him you and your family get into the trouble. He started blaming himself. We make him understand because of you we got saved today as we all are visiting Guruji's ashram. When he reaches Guruji's ashram, he felt so happy and relaxed with the soothing shabads and bhajans. Near to the hall, one sevadar uncle told him to sit along the floor, but he refuses referable to pain in his back. Then, the sevadar uncle called him and said him to pick the heavy flowerpot. First he refuses, then he picked them easily without much pain, afterwards that uncle gave him two Guruji's Swaroop lockets. We didn't know who was that sevadar uncle, why he called my brother to pick heavy flowerpots only Guruji knows his ways of blessings. Afterwards, my husband told my brother about the

fragrance of Guruji and my brother said, because of his sinus he may not get able to feel the fragrance. Later on, when he reached home, he asked my mother if someone has lit the scented sticks or rose perfume in the room. My mother answer, you are coming so late and asking me about the fragrance.

But.....it was Guruji, who blessed him with the divine rose fragrance and from that moment he felt no pain in his spine. Next day, he went to the doctor and had some tests, but the doctor was shocked to see his healthy reports. This is how Guruji relieved everyone from their problems in the form of blessings. From then, my elder brother and my parental family started visiting bade Mandir.

OM DARSHAN ON THE WALL

One day, my mother-in-law started reading "Sukhmani Path" four years ago. Every evening she read it in our living room. One day when she just finished the path, we saw embossed 'OM' image on the wall. It was so beautifully shaped, and we all got amazed to see the Guruji's blessing. We never had as such image before on this wall. Two years later we painted that wall, but the image remains as it is on the wall. Later, when we shifted to a new house we were really sad that now we leave the old house where we got such a beautiful blessing. However, Guruji again blessed us with 'OM' blessings in our new house.

WEDDING ANNIVERSARY BLESSINGS (AMRIT DHARA)

Our anniversary turned out to be one of the best days for my husband and me. Guruji blessed us with Amrit droplets (Dhara) in our bedroom. I was sitting in the room and all of a sudden, I saw Amrit flows from the wall. At first, I didn't understand and thought it was a water leakage, but it was thick water droplet. We were wondering that we had no water connection behind the wall and nor we had experienced any water leakage from there. We were totally

confused about it, though I have heard Satsangs about Amrit flowing from the walls or from Guruji's Swaroop. Immediately Guruji makes me realize this and I taste that droplet. It was thick and sweet like honey. When we were trying to understand, we saw another drop of Amrit flowing from the wall. It was really amazing, my eyes filled with tears of delight. Guruji makes our important days the special days with his blessing.

GURUJI BLESSED MY BROTHER WITH US VISA

My younger brother was running a cafe in Delhi with my father and elder brother. His cafe is quite popular, it serves delicious coffee and other dishes. He got several recognitions and awards for his excellent service and food. Once, a person arrived in his cafe and ordered for coffee, sandwiches and bandit burger. After eating all, he got so impressed with the taste, he asked who prepared the dish and coffee. My brother came and said that he is the one and that person immediately gave him an offer to join his restaurants in America (San Francisco and Los Angeles). He couldn't believe that person and didn't take the offer seriously. A few days later, that person sends him paperwork which is required for further processing. My brother applied with the surety of not getting the visa as these days getting visa for US is quite difficult. By the grace of Guruji, he got a call from the case officer to visit the US embassy for the visa interview. While reaching embassy, he leaves everything on Guruji and start chanting Guruji's mantra jaap. The case officer asked him several questions and after half an hour interview he got long-term visa for US. With the blessings of Guruji, he is in America now, though the initial period is difficult for every person to settle in a new country. But, he had a firm belief that Guruji is beside him and will always shower his blessings in difficult times. Today he is well-settled and living happily with the blessings of Guruji.

Guruji is blessing him sooner with a baby and his baby name is decided to be called as 'Shivay' Now with the grace of our Guruji

Maharaj, my elder brother's family and my parents are also settled in USA.

GURUJI SAVED OUR FAMILY

One day, our bedroom air conditioner stopped working, so we called Ac mechanic for repairing it. The person came and takes good amount for filling gas and repairing unit. Our Ac unit was kept outside the wall of our bedroom window. For three days Ac works really well, but on the 4th day when we sleep in the night, around 2:30 am we saw huge fire flames reflected from the backside of the room window. The gas was leaking terribly from the Ac cabinet and it burned the things kept nearby. We got so frightened and didn't understand what to do or how to stop the fire? We started chanting Jai Guruji, Jai Guruji, Jai Guruji. All of sudden, Guruji alert my husband to switch off the Ac button and immediately the fire got stopped. The next day when we called the Ac mechanic, he said it was a compressor blast. He further said, it usually explodes with huge force and can be life threatening. He called us the lucky one, but we all knew this was our Guruji's blessings, so we didn't get hurt at all.

Very Next day, we got Guruji's message blessings, "Ae Samajh Wadda Kasht chotte Vich Kat Ditta, Je Wadda Kasht Aanda Te Tussi Bharpae Vi Na Kar Pande" Har Pal Shukrana Guruji, Jai Guruji. We also got Guruji's charan darshan picture posted by sangat aunty Ji. Unbelievably, near to Guruji's left foot fingers there was ashes inside the frame. Even the sangat auntyji who posted the picture was really shocked, as a day before the frame was very clear. It truly assured us that Guruji saved their disciples from every trouble. Thank You Guruji for saving us every single moment, har pal aapka shukrana "GURUJI".

GURUJI MAKES NEW PATH FOR US

At the time of our sorrows, anxieties, disappointments and fear Guruji becomes our saviour who helps us in coming out of this darkness.

Me and my husband were in the business where our work was getting appreciated all the time and we too make every product with honesty and dedication. But even after much appreciation and hard work we were not getting the results, even it became difficult for us to run the business smoothly. All of our income was getting into fulfilling the expenditures. Guruji saved us from that situation. He changed our misfortune into his blessings, he chooses a new career path for us. We had never imagined that we will be moved to a new country. Guruji take this life changing decision for us. Along this new path, we learned new things and new lifelong lessons. Guruji guided us with his miraculous blessings in every step.

JOURNEY OF SETTLING ABROAD

Our journey of settling abroad (Australia) begins in the year 2015. My husband's elder brother and younger brother were already settled abroad, now comes our turn. Initially, it was not that easy, as we were not having any knowledge about how to move abroad, which visa to apply, which path to choose, whom we should contact and what paperwork is required. Guruji became our mentor and guided us. He makes everything smooth for us. We also got the Guruji's message blessings, "no one can stop what Guruji has planned for you". With the grace of Guruji, we came into the contact of one agent who assisted us throughout the proceedings. From there we started the procedure and during every stage we feel the presence of Guruji. Our family was always there to support us, and my brother-in-law and sister-in-law always helped us and share their knowledge about the things that they know and guided us. Guruji also send a person who helped me unconditionally and more than our expectations in making this dream possible for us. He always treated me as his daughter. I will forever remain grateful to that great person.

Our first stage of the PR process got cleared with Guruji's blessings. I got a call from an assessment authority for two times and both the time I inadvertently missed their call. Third time before they called me, my agent said you should prepare yourself or make some notes as they can call you anytime. One day, I was going out of the town with my family to my cousin's house, so I kept the prepared notes in my bag somewhere. Thirty minutes later, my phone started ringing and I recognized this call was from the assessing authority. I started searching my notes but couldn't find them in the bag. I chant Guruji's name and picked up the call. The woman on the other side started the verification process, she asked me several questions related to my work. With Guruji's grace, I answer all her queries and she kept asking me for around 45 minutes. It went really well, I thanked Guruji that he gave me the confidence to answer all the question correctly. After five days, I got mail for passing the first level.

GURUJI CLEARED MY EXAM

Next difficult stage for me was to clear the English language test with the desired result. I have seen many people who got stuck for clearing this exam, I attempted this test twice and both the time my test was not clear, though I have an improved growth. Passing this test becomes a crucial step for moving further in the immigration process. I was having complete faith in Guruji, but the time was flying with a great speed. Also, I was worried if the rules get changed with the new list and I might not get able to proceed further. One day our agent suggested us to opt for new English Language Test which is computer based. I was not willing for that option as new test means learning the new concept and starting the process again, but ultimately I have to. When I began to understand the content, I found it difficult in comparison to the previous test. I became worried that maybe this time too, I may not clear the exam.

Guruji have always blessed me with his help when it is much required.

My agent recommended me a tutor who helped me a lot in clearing the concepts. I practiced so much with the determination of passing the exam at any cost. My husband also helped me a lot, he makes my practice more precisely. With the blessings of Guruji, I appeared in the test and lack by four marks only in one area. I felt little disappointed, but my result was outstanding in other areas. I score 86/90 in grammar, written discourse 79/90, oral fluency 76/90 which was shocking for me, I didn't even realise when and how Guruji upgraded my English skills. This test results gave me the hope that I am very near to clear. A few days later, I appeared again in the test and this time the test was much difficult. I missed my two lectures; my marker stops working in between and I just speak what I hear. I gave the test thinking this time too I may not clear the test, but I have to complete it. After the exam got over, I became totally hopeless and started crying. My mother was with me, she makes me calm down by saying trust Guruji he knows everything. Suddenly, I felt the strong rose fragrance of Guruji. Instead of thanking Guruji, I complained to him, "why are you making me feel relaxed when you know my exam didn't get well". I cried that whole day and night. The next day when my result was about to come, I went to pick my son from the school and when he came out of his classroom, he kept little Ganesha in my hand (my result came during Ganesh Chaturthi days), my son makes this Ganesha in his school activity with a red clay. I felt so positive to have Ganeshji. When my husband saw Ganesha he said, I am very sure you will clear your exam today as coming Ganesha is a good sign and he is also known as, "VIGHANHARTA". He said, Guruji has sent you his blessings in advance. My husband's words turned out to be correct, when we got the result it was cleared with a desired score. I cried of joy madly and wasn't believing how Guruji blessed me even when I didn't have any hope.

One more unbelievable blessing Guruji gave me prior to the test day, which I noticed after clearing the exam. A day before my test, I was making chapatis in the kitchen and on one chapati I got 69 number. I didn't take it seriously but clicked the picture and later on when I checked the result, my overall band score was 69. It was completely unbelievable, how Guruji blessed us with his miracles. Guruji also gave his blessings on my birthday, which was three days before my test. We went to Bade Mandir to seek his grace, there I got Guruji's divine book "Divyata Ka Prakash", Guruji's Swaroop and his locket. After having the divine book, I said, 'Guruji you blessed me with this satsang book, but how can I read it as most of my time is occupied for practicing exam'. Guruji listen to my prayers and cleared the exam and now I read this divine book every day.

Our Guruji is so generous, he is omniscient, omnipresent and omnipotent, he knows everything, and beautiful thing is that Guruji turned our difficulties into his blessings. I never understand how a person like me get so upgraded with his grace.

Love you Guruji :-) :-)

Loads and loads of shukrana Guruji for your each and every blessing.

WAITING FOR A VISA GRANT

After clearing the English Language Test, the most difficult thing was to wait for the Visa Grant. Waiting for visa to be granted was extremely time taking and become very hard for us. We waited for two years and during this time we went through many things. There was time when we become excited, sometimes tensed, sometimes we wait patiently but sometimes we become very impatient. During the waiting period, we started reading Guruji's blessings every day. These blessings were so beautiful and gave us a belief that Guruji is with us and things will turn out to be fruitful once the waiting period will be over. Guruji becomes our Saviour, who helped us immensely coming out of this dark waiting period. Guruji prepared us for the coming future, we started taking things more positively, he teaches

us that every phase of a life is a learning experience. Guruji cleaned our karmas during this period, our prayers and devotion for Guruji becomes more honest. However, many times we thought that things will not be in our favour, but whenever we had any negative thoughts; Guruji's positive blessings makes us positive again. These blessings were actually our telepathic connection with Guruji. He speaks to us through these blessings. We started taking Guruji's blessings as his 'Hukumnama'. Guruji changed our behaviourism and our point of view. We become totally a different person after coming in Guruji's Sharan.

When we applied for the visa, we went to the Guruji's bade Mandir for seeking his blessings and there we heard the shabad 'Tu Aiven Darda Rehnda Si Aa Vekh Teri Gal Ban Gayi Hai'. After hearing this shabad, we thought that visa is just around the corner and we may get it within few days. Though, Guruji was giving us trust that things will be in our favour, but first he wants to clean our karmas. We waited two years for just getting the visa, till that time there was no processing from the department heads. At that time, Guruji progress us spiritually and also makes us prepared for our further visa verifications. Guruji also gave me Swapan Darshan where he assures me for the PR grant, but as we are humans, we get stuck in our own imaginations and we become impatient for the things to happen immediately.

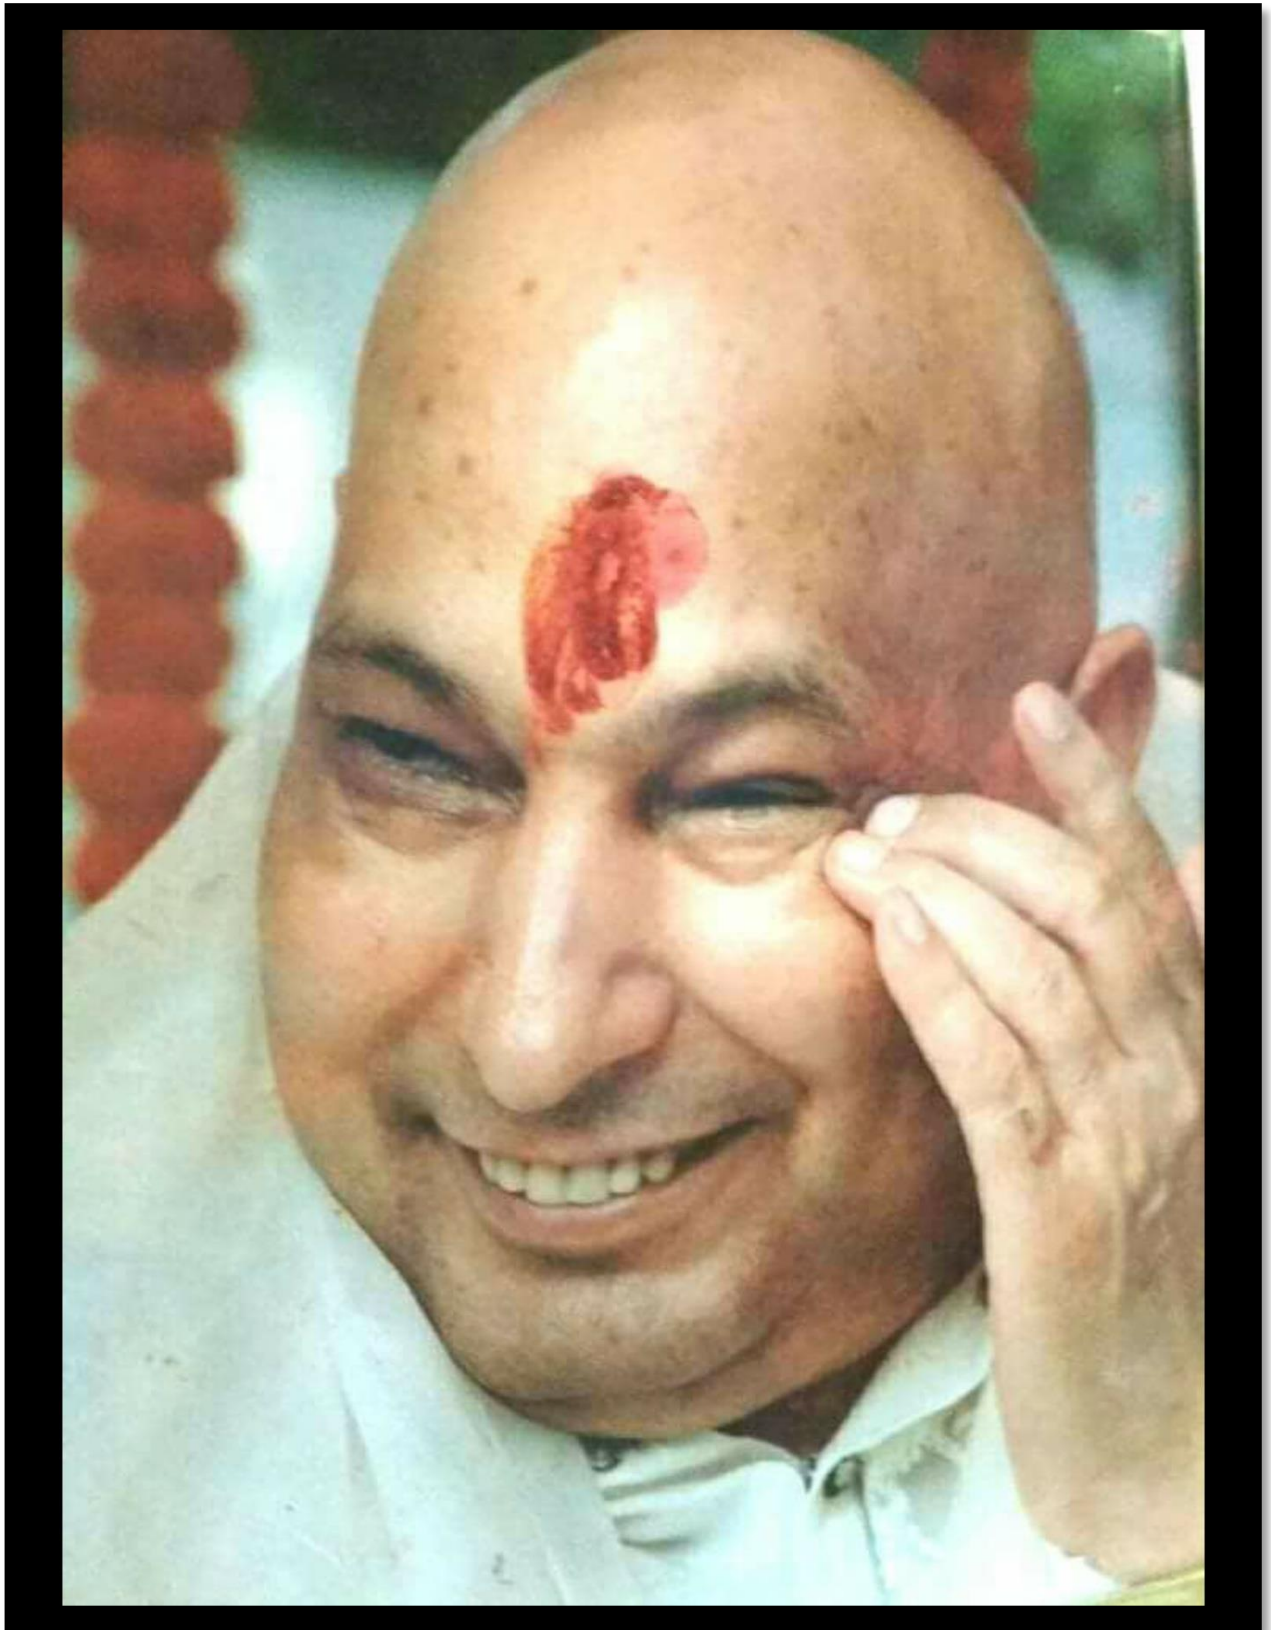

MEMORABLE VALENTINE GIFT

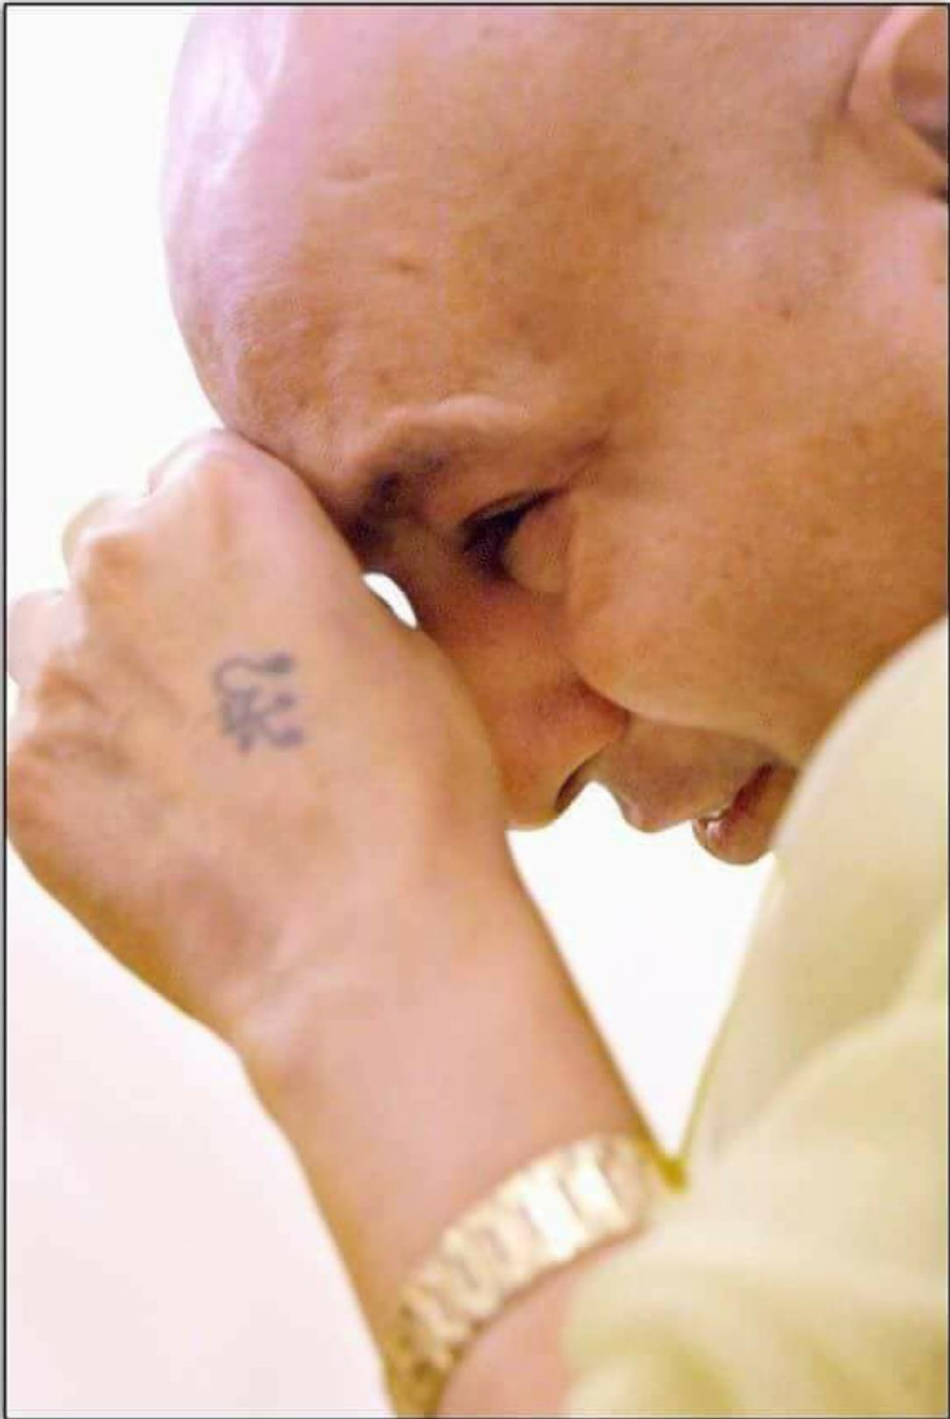

After such a long wait, finally the day came in our life when Guruji granted us the permanent residency of Australia (15th February 2019).

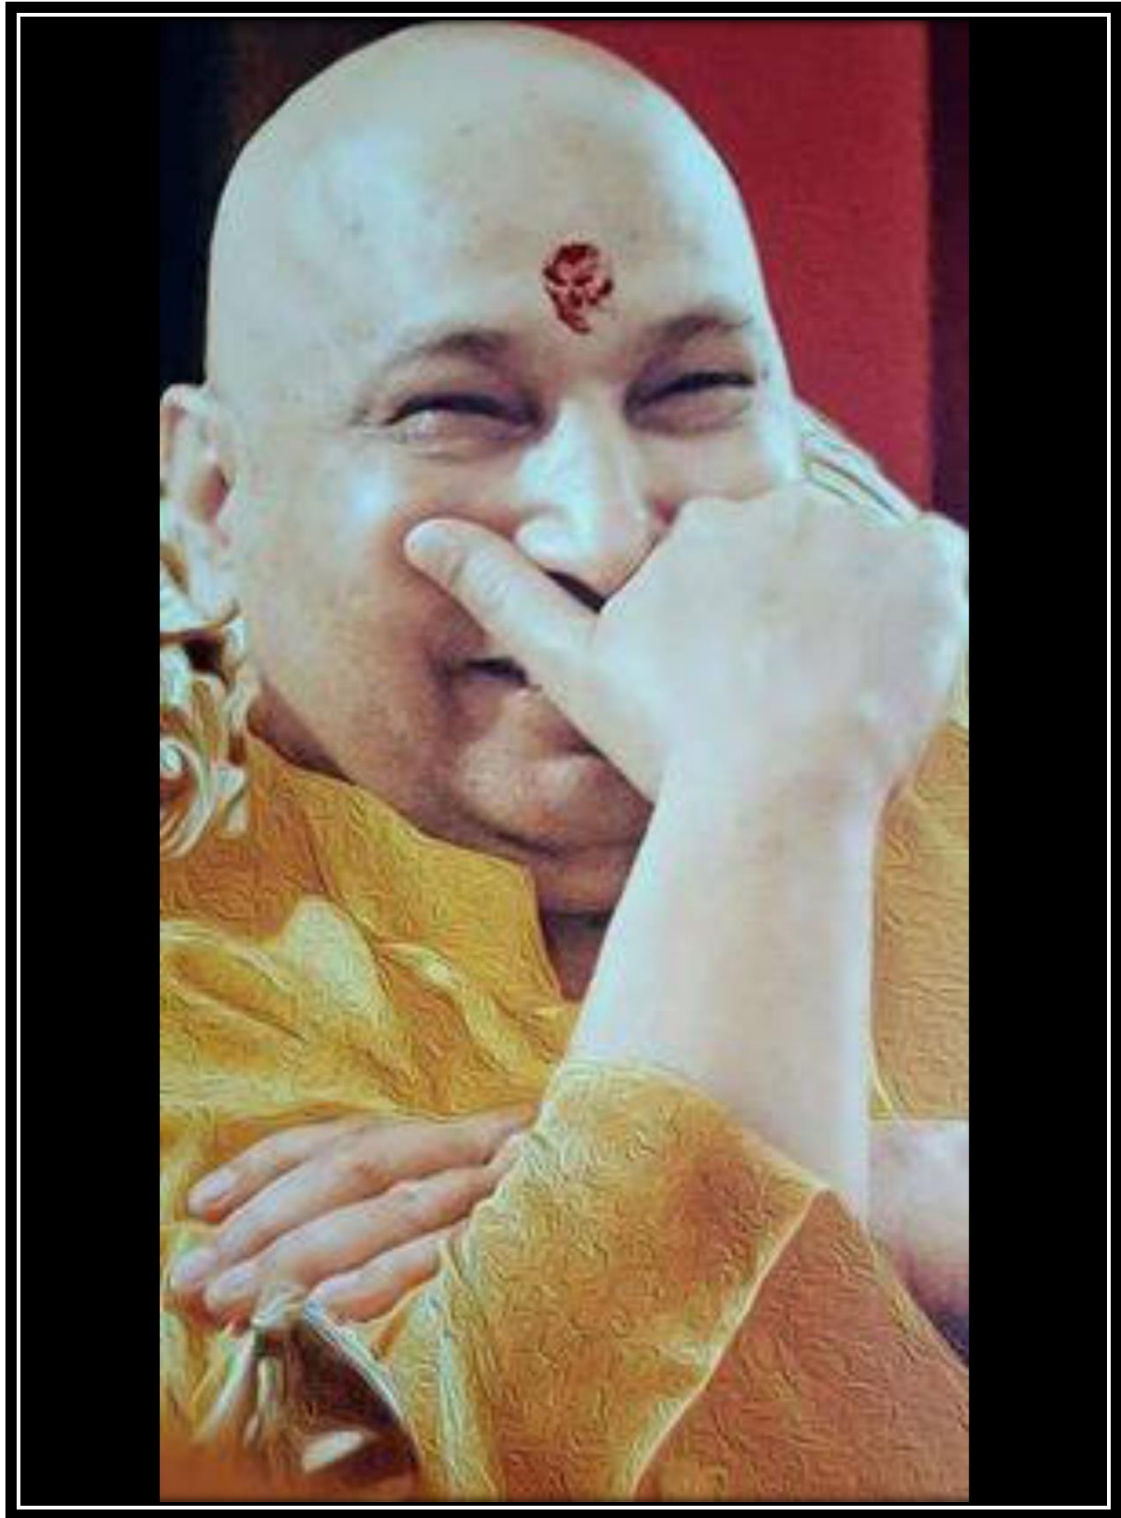

Last year on Valentine's day 2018, when I was making chai prasad for Guruji, he gave me a beautiful heart shaped image in chai prasad, and I felt so glad that Guruji wished me on a Valentine's day. This year too I had expectations of having Guruji 's special valentine's blessings. I waited whole day, and nothing had happened I felt little sad about it, but what I wasn't aware about was that Guruji has planned extremely important life changing blessings for us and very next day, we got visa grant in our email.

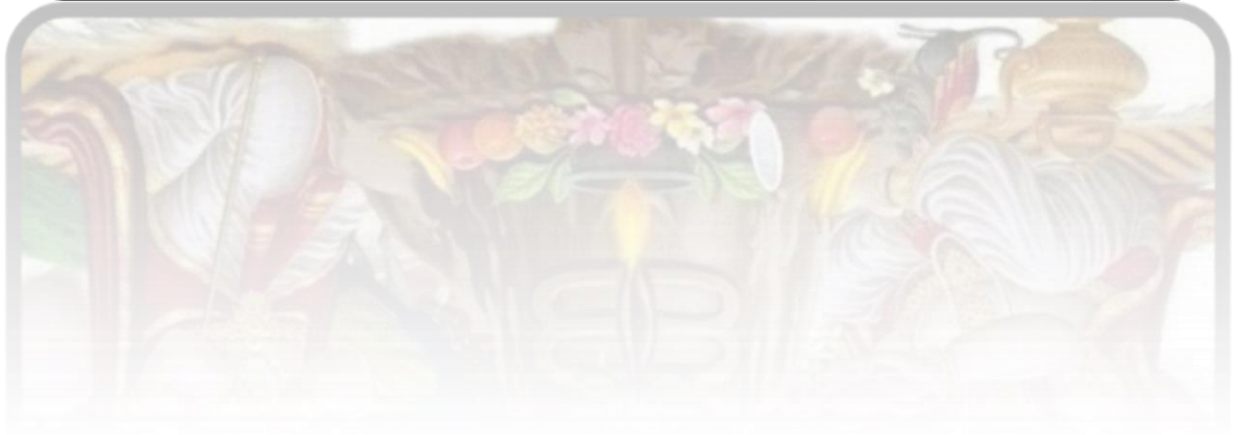

In this whole process, we find Guruji besides us and holding our hand..... We were just following Guruji's footsteps. Guruji is a practical Guru, who not only progress you internally but also fulfil your desires and wants if they are fruitful for you.

SHUKRANA GURUJI 🙏🌹

Jai Guruji

Please forgive me Guruji, I tested you and didn't understand your power, please forgive me that I believe you as a normal Guru.

Guruji in the beginning, when I came at your doorstep, I have no faith for you in my heart, but now you have transformed me into a new person. After coming into your shelter, I understand the real meaning of connecting our soul with you. I know in this materialistic world, there is tremendous forge people are losing trust in Gurus, but true Guru shows their real form. A true Guru doesn't require any introduction or any publicity, he doesn't need any security. He can protect himself and his devotees from any trouble. By coming in your shelter, we understand the true meaning of Guruji's 5 'S'Satsang, Sewa, Simran, Shabad and Sangat.

"Satsang, Sewa Simran kariye, te Bhakti da vi daan deyo, tere gun sagar likh gaunda rwa sur kalam Vich aisee jaan deyo".....!

Guruji, you make me understand that real sewa starts with home first. One should always serve their family members first and then come to temple and serve god. Whatever work you performed in your home is your real sewa. Guruji used to say, "aslee sewa te ghar toh shuru hondee hai, maa pyo dee sewa, pati-patni te bacheya dee sewa sab toh oonchi hondee hai, o sewa te bhagya waleya nu mildi hai, os sewa which duaaava mildee ne. Je tusi sifarish la ke ya paise deke sewa lende ho te os sewa da koi mol nai. Sewa Karan naal bhi karam Kat de ne, magar sewa hamesha Saache dil toh karo, kisi laalach naal, aahankar naal, maan naal ya dhikhave naal nahi. Naale kisi toh cheen ke vi sewa nahi Karnee chahidee. Tin cheeza da twade man nu vi pta nahi hona chahida; Sewa, Simran te Daan. Jad vi sewa karo te bhul jao tussi ki kitta hai, Simran karo te gintee na karo tussi kinna naam japeya hai. Malaa kade vi manka te na phero, O dey naal maan aanda hai ki Mein aj inni maala pheri hai, naam inna Japo ki twaade rooh vich vas jaave. Sonde, bainde bas Guru da naam hi twaade mooh toh nikale. Jad tussi daan Karde ho te twaade right

hath nu vi nahi pta hona chahida ki left hath ne ki ditta hai. Daan hamesha left hath toh karo kyunki left hath Khulla daan Kardaa hai te right hand baar baar sochda hai kuch wapas rakh lwaa.

Believe me sangatji, if you keep Guruji's word in your mind you find yourself a changed person. You will get closer to Guruji, the God almighty. The meaning of total surrender is to give up all the materialistic things. Ubiquitously today, there is tremendous negativity, deceit, mistrust, selfishness, competition, egoism, jealousy, counterfeit and insecurities. People are only running for materialistic things. Guruji came into this world to purify our soul, he first blesses you with the things you required and then he starts the process of cleaning your karmas. Your karmas can get cleaned if you wish good for others, that good deeds will come back to you. The more you pray for others, specifically for those who hurt you or said you bad things, you will get higher place in Guruji's divine lotus feet. It also helps you gaining spiritual practice. People often forget, our good karmas can give us the liberation from the cycle of birth and death. Whereas, our bad karmas can lead us to the darkness, despair and misfortune. If someone hurts you intentionally, just keep yourself calm, change your way and leave everything on Guruji. You should always ignore negativity and never keep anyone's painful words in your heart. You should not react on such things. If you believe in Guruji, then trust his timings. Guruji knows how to handle such situations. Guruji never wants you to hurt anyone.

Guruji will take you to the heights of success and then he will test your attitude, behaviour and mannerisms with others. If you didn't get carried away with your success and walk on the path guided by him, then you will get his true Bhakti, true devotion of his lotus feet. However, if you forget Guruji's mercy on you or try to prove your cleverness, raise your ego then you will be step down and squeeze like a lemon. All the doors of sorrows open for you. That's why always pray for his mercy. Once you surrender yourself truly to Guruji with your clean heart, you will get all the answers by him. Guruji answer your each and every question, share your all pain with

him he listens you, sangatji believe me this is absolutely true. Guruji makes a telepathic connection with you. He answers you through different mediums like through messages, shabads & bhajans, Swapan darshan and in various other ways. For numerous times, Guruji had given me his darshan in dreams where he actually saves me out of the troubles, be it emotional, physical or related to health, etc. When you are in severe pain where you are facing some difficulties and at that moment you heard or read any message blessings from him, you really get shocked to realise how Guruji reads your mind and heart. For couple of times, I got such blessings and my eyes filled with tears of joy and love. I also liked to thank all the Guruji's sangat singers who have written such beautiful compositions for Guruji. It really helps their disciples to convey their feelings and getting connected to Guruji. Guruji's bhajans have beautiful words which communicate what lies in your mind and heart.

Our Guruji is our identity, when we see our Guru we feel the direct connection and from that connection we form a new energy in ourselves. Guruji flows good thoughts in your mind, heart and into your whole body like the blood flows in our body. Guruji will bless you with purity (sacche bhaav). He keeps you away from all the sins. The power of illusion is not easy to overcome our soul get easily trapped in it, with the grace of Guruji we can get salvation. The five types of delusions desire, anger, greed, ego and envy are said to be the most difficult, arising out of the ignorance. With Guruji's blessings all these vices can be destroyed and when the afflictions get dissolved, then we can get the freedom from the cycle of birth and death. When a person achieves liberation their self, return to the origin like a drop of water returning to the ocean.

Remember, our struggling days are the best days of our life because at that time we learned many things. We can know about our strength; we can find our hidden talent or what we are capable of doing..... only our hardships can teach us. Our sorrows make us a more mature person.

For living in this world peacefully, it is important that we should live unitedly. I have seen many people fighting for the religion and not only that, majorly I have seen people of the same religion arguing for their favourite God. You never find forms of God fighting for who is superior. In temples, one can easily see all forms of God kept together. We pray and believe in God according to our liking who is our favourite. Praying God doesn't mean that we should be competitive, besides we should always respect everyone's faith. Faith is something that grows timely and with the blessings of almighty. If we cannot live together, then we can never be on the path of spirituality. If we worship any form of God, we are worshipping the one God, the supreme power. God is universal. There is no religion bigger than humanity. Service to mankind is our true religion. This is what we learned from Guruji. Love you Guruji always and always.

Har Pal Shukrana

Jai Guruji

Keep Doing Naam Simran

OM NAMAH SHIVAY SHIVJI SADA SAHAY

OM NAMAH SHIVAY GURUJI SADA SAHAY

Shukrana Guruji for this beautiful sewa, you have blessed me more than I deserve.

May Guruji bless everyone with his divine blessings

Jai Jai Guruji

This is not the end of our journey, as Guru Ji's blessings continue with us forever.

Tan Man Hoyal Nihaal, Ja Guru Dekha Saamne

Andar Saccha Nehu, Laya Satguru Aapne!!!!
